AS GRADUATES AND UNDERGRADUTES
HIS OWN CONCERN.

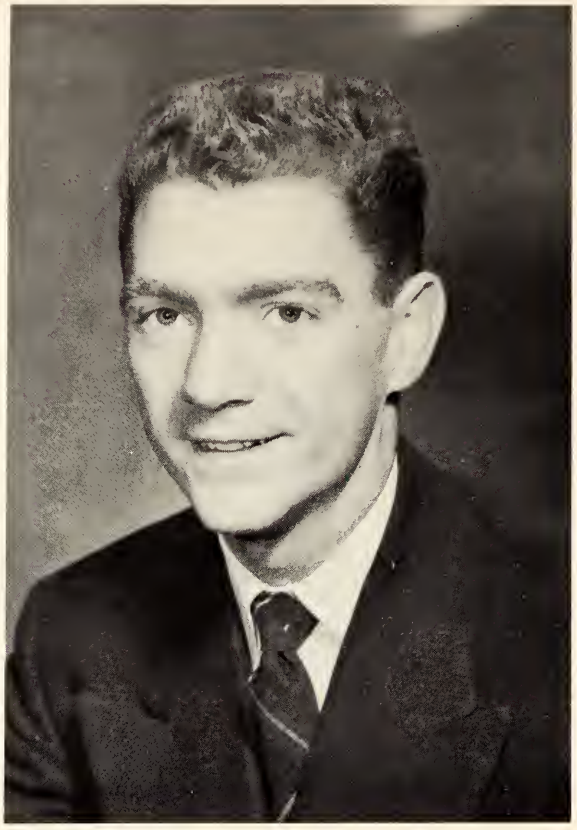
WE ARE GRATEFUL.

IN ACKNOWLEDGMENT
OF HIS BENIFICENCE

THIS BOOK IS DEDICATED
TO OUR RECTOR.

"AND THESE WERE THE GOLDEN YEARS"

THE ALMA MATER SOCIETY EXECUTIVE



FROM THE PRESIDENT

Students of Queen's University have, in the past 98 years, reached a position in self-government that is the envy of all universities. They have attained this enviable position only by hard work and by the willingness to take the many responsibilities involved.

It is apparent from recent events that, either from ignorance or from lethargy, the complete student body is not fulfilling its responsibility. The Senate has placed the good name of Queen's University in the hands of us, the undergraduates, and only by the cooperation of everyone can it be maintained in a high state of repute.

The events of the fall term were traced to a few, but if the student body as a whole had ridiculed their actions, and by social pressure made it known that they disapproved, I feel sure that the incident would not have caused the country-wide publicity that it did.

You may say that the AMS executive should be able to do the job. I can assure you that they have worked very hard at trying, but what can sixteen people effectively accomplish without the cooperation of the 2,400 they represent? Take an interest in your school community and in your representative body. It will assist you in understanding and appreciating the problems of the group as opposed to the individual.

May every success be yours in the present and in the future years following your sojourn at Queen's University.

FROM THE PRINCIPAL

THE UNIVERSITY IN A CHANGING WORLD

The Class of 1956 graduates into a world of swift change and disappearing landmarks. So have all its predecessors. We cherish a myth of eras of stability in the past. We have almost come to believe that the world before 1939 was a simpler world. The world before World War 1, we have been told, promised unlimited and inevitable progress; the landmarks were fixed and clear. It was for long agreed that those deeply troubled people, the Victorians, had no problems, no doubts, were completely sure of themselves and their universe. The people of these eras in fact lived in disturbed and changing worlds, shaken by uncertainty and apprehension. The changes they experienced differed from those which confront us. They were apprehensive of somewhat different things. They relied on landmarks which seem to us less important.

For the present generation the difference is not in the fact of change but in the speed with which effects of change run through a whole society in decades rather than centuries. For universities one aspect is relevant. We are feeling the effects of a very rapid increase in knowledge and in its practical dissemination. Yet there is not so much that is new and revolutionary in it. There is not much that flows from new and profound insights. Our revolutionaries in thought have been as boats adrift in eddies and swift rapids. There has been an extremely rapid practical application of knowledge.

Our age is characterized not by profound understanding but by massive systematic research, stimulated and made possible by war, by large industry and by national governments. We are strong in analysis and application; we lag in synthesis and insight. We master techniques, procedures and "know-how" and falter in our sense of direction and understanding.

In Canada there is the added pressure of rapid economic expansion and a revolutionary increase in population. So far the increase is almost wholly in the numbers below the normal working or university age. We are approaching the point, as it were, of maximum squeeze when those who support, train and create the environment approach a minimum, while the numbers of those who are dependent, who are undergoing training, are moving to higher and higher levels.

Now, and for the next decade or two, there is a great unsatisfied demand for trained and skilled persons. At present it is directed particularly to those who can deal with things but the focus is shifting to those who can deal with persons and ideas. For this generation of graduates there is larger scope and responsibility with rapid up-grading to the limit of each person's skill and talents.

Shortly much larger numbers will reach the universities and they will go on increasing for about twenty years. There will be need for larger universities and probably some new ones, for more technical schools and colleges and a greater variety of specialized institutions. Many universities and colleges which are now small will find themselves struggling with large numbers.

At the moment too much attention is focussed on this formidable crest of numbers ahead. There are other serious concerns. "Know-how" is important but with systematic effort it is easily and quickly acquired. It is astonishing how successfully even complicated technical knowledge can be communicated and applied. More people, larger industries, the complexity of urban living, multiplicity and speed of international communication—these can produce a frightful audio-visual civilization.

Even if some find television less stimulting or satisfying than an open fire, there is no return to a simpler life. Much of the zest of life is in reducing the greater complexities to a workable synthesis or pattern.

Beyond the need of this era for training and "know-how" is the need for inquiring originality of mind, integrity of thought and humility in the development of perception and wisdom. On these will depend the quality of our civilization, the persistence of our nationhood, the justification of our material progress.

Universities must cope with greater numbers. They must give more professional training. But here in Canada they must also increase in depth. They must re-establish vital scholarship giving the perspective which comes from having discovered what is mere change and what is growth. They must maintain as they have unevenly over centuries their concern with what is new and vital and what is old and enduring.

GRADUATES

Knowledge is proud
that he has learn'd so much;
Wisdom is humble
that he knows no more.

William Cowper

LEVANA

Learning is nothing without cultivated manners, but when the two are combined in a woman, you have one of the most exquisite products of civilization.

Andre Maurois

FROM THE DEAN

As another class of graduates goes out into the larger spheres of responsibility and opportunity we wish for them the joy and satisfaction of challenging tasks and the encouragement of progress, even slow progress, towards their desired goals. With continually enlarging vision of the importance of home, of community and of international understanding and cooperation, may life be deep and rich and always full of the spirit of adventure.

FROM THE PRESIDENT

. . . No man is an Iland, intire of it selfe; every man is a peece of the Continent, a part of the maine; if a Clod bee washed away by the Sea, Europe is the lesse, as well as if a Promontorie were, as well as if a Mannor of thy friends or of thine owne were; any man's death diminishes me, because I am involved in Mankinde . . .

John Donne

I wish each of you success and happiness. May our Alma Mater be proud of us in whatever we undertake.

Education keeps they key of life, and a liberal education ensures the first conditions of freedom—namely, adequate knowledge and accustomed thought.

Julia Ward Howe

FROM THE DEAN

Last summer I climbed to the top of a lighthouse. Before that I walked up a steep winding road to a bare crest. Here there was a pretty good view and some tourists went no farther. I, however, toiled up the spiral stairway all the way to the platform at the top around the great light. Now there were spread out to the eye a wonderful maze of islands, the harbour and the boundless ocean. The essential role of the lighthouse as a guide to shipping was plain to see.

Analogies present a case imperfectly but they have the virtue of making a vivid impression. I have thought of two. The top of the hill corresponds somewhat to the end of high school; the top of the lighthouse is like the graduation stage at Queen's. Alternatively the graduate is like the great light.

At this stage the student can see and comprehend a great deal more than he could when he began his course; and this is a matter for much satisfaction. He also, like the light, can be of service to others in this dark world. In a small way — I venture to assert — he should be "a lamp unto their feet and a beacon of their salvation."

In this short message I have omitted many obvious things, but I must mention the pleasure of all of the staff in the achievement of this graduating class and must extend to all their best wishes. I salute the class of 1956 as they go out into the world. Many happy returns!

W. O. Earl

FROM THE PRESIDENT

Our years at Queen's have ended. Truly they have been too short.

We have just started to scratch the surface of education and it is already time to leave the halls of Queen's. Fond memories and sad moments mixed with new friendships and associations have all contributed to our personal development as the future leaders of Canada. The future is ours. We have now the foundations for making it rewarding and secure.

I would like to thank all the members of the staff who have given so much generous help and understanding. Their aid shall not be forgotten.

May I personally wish you every success in your chosen careers, and may your future bring forth much happiness.

SCHOOL OF HEALTH AND PHYSICAL EDUCATION

FROM THE DIRECTOR

It is with mingled feelings that we wish the members of P.H.E. '56 good luck and good fortune on graduation.

It is with regret that we see you go because many of the associations between staff and students of this class will be broken. We have enjoyed very much having you with us for four years. You have had a happy University experience and have applied yourselves conscientiously to all phases of University life.

It is with pleasure that we wish you well, because we know you will represent this University as worthy graduates. Probably the most complimentary thing I can say about you is that we hope future graduating classes in the course in Physical and Health Education will be as diligent, as joyous, and as generally competent.

FROM THE DIRECTOR

Those who control the destinies of Canada's chief commercial and industrial firms are acutely aware today that, if they are to ensure a competent succession in the top-management posts they must, collectively, attract to their administrative staffs large numbers of commerce and arts graduates. They seek educated young men and women who have learned to think, to resolve problems and to communicate ideas — not those who are merely capable of lisping in the jargon of business techniques.

As members of the graduating class in Commerce at Queen's, you very definitely belong in the "wanted" category. You are the product of an honours course and by choosing Commerce you have indicated an interest in the sort of activity in which business men engage.

But only a demonstration, on the job, of ability to observe, analyse, synthetize and communicate will take you to the top of the ladder. I and all my colleagues in the School of Commerce will be watching your progress confidently and with affectionate interest.

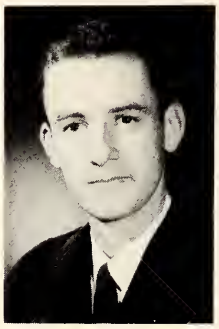
THEOLOGY



PETER FARIS
Toronto, Ontario

W. N. HIGHAM
Battersea, Ontario

MESSAGE FROM THE PRINCIPAL

I wish to congratulate you, as you graduate from the Theological College, for two reasons. First, because you have completed your years of study and may now look back with some satisfaction and pride in what has been achieved. Secondly, because, as men committed to the ministry of Christ and His church, you are going out to undertake your work in a time when strong and vigorous Christian leadership is urgently needed. May you think of the completion of your course as but the preparation for greater adventures and accomplishments in the realm of the mind and in the maturing of the Spirit. And may you have that measure of devotion and consecration which will issue in the finest leadership that you are capable of giving. My very best wishes for a long and faithful ministry.

MEDICINE

Medicine is not only a science, it is also an art. It does not consist of compounding pills and plasters. It deals with the very processes of life, which must be understood before they may be guided.

T. B. von Hokenheim

FROM THE DEAN

I wish to congratulate the graduates in the class of 1956 who have taken all we could give them, and now issue to advertise the qualities of a training at Queen's. We shall miss you as a parent misses a child who leaves home to make his fortune, and, like a parent, shall always welcome a visit from the successful progeny. Who knows? — That fortune may be so great that the children will return to help repair the parental roof or build an addition to the domicile!

The University wishes you success in all your undertakings. In your practice you will be beset, on the one hand, with the need of constant study to keep abreast of revolutionary discovery, and, on the other hand, with the struggle of patients to meet the increasing cost of medical care, which follows the improvements in methods of diagnosis and treatment. You will also see a popular demand for state support— and even control of medical treatment; there may follow irritating restrictions on your profession. I hope you will be wise and patient in the face of these perplexing problems, and always remember that the first duty of the physician is to care for the sick with understanding, kindness and skill.

A MESSAGE FROM THE PRESIDENT

In the study of Medicine at Queen's, formal lecture material is presented by a staff of able professors who have no peers. The student upon graduation, has learned his lessons well and is expected to justify the guidance of his teachers in future practice.

However, at any university, and particularly at Queen's, there are tremendous opportunities to acquire the qualities of citizenship upon which our Canadian society is founded. It is hoped, that all of us have availed ourselves to these opportunities and will practice these principles as we take our place in the community. If we have absorbed just a few of these desirable characteristics and strive to live up to the ideals and examples set for us by our teachers, I am sure that our Alma Mater will be proud to claim us as Queen'smen.

To the graduating class, on behalf of the Aesculapian Society, I extend my congratulations and sincerest best wishes for the future— as Doctors, Queen'smen and members of the community.

SCIENCE

The work of science is to substitute facts for appearances and demonstrations for impressions.

John Ruskin

FROM THE DEAN

It is unfortunate that the late Dean Douglas Stewart Ellis with whom you were students and who became a friend to so many, was unable to prepare this farewell message.

In a few year's time you will look back on your short stay at Queen's as being the most interesting and profitable years of your life. You have taken advantage of the opportunities which lay about you to improve yourself in many respects. Among the more important features, although not emphasised in a formal way, has been the rubbing shoulders with other students of other Faculties, of many races and from many parts of the world. As the years go by, you will appreciate more and more the effect this had has on your general feeling of well-being, your confidence in maintaining a liberal viewpoint and your understanding of the real meaning of tolerance.

The instruction which you have received in the classrooms and laboratories has provided you with a kit of tools designed to help you earn your bed and board and to provide some of the things that make for good living. Have confidence that you can more than hold your place in the competitive field of industry as an Engineer, both technically and as a good citizen.

Take an active part in your general Alumni Association and its local branch. Be humble in your respect for the many Alumni and others who have contributed so much to your present position on the ladder of success. There is a host of your predecessors who, unknown to you, and through sacrificing of themselves have made possible the University, its staff and the society of which it operates. Be prepared to extend a helping hand to those who follow, with the same good grace with which you have accepted it.

We at Queen's look forward to welcoming you back to your first Reunion weekend and all the fine stories you will tell of your successes. Good luck to you all.

W. Conn

FROM THE PRESIDENT

It seems like only yesterday that we of the graduating class were donning our tams with the yellow tassels and entering into a completely new way of life. The ways at Queen's. which seemed to fly past with ever-increasing rapidity, were nevertheless packed full of ne'er to be forgotten experiences and fellowships. The Tricolor is an execellent medium with which to preserve such memories and I feel sure that much joy will be derived from thumbing through the pages in future years.

On behalf of the graduating class, I would like to express our sincere and humble thanks to the members of the faculty for the unselfish manner that they have attempted to prepare us for the man-sized job of being an Engineer.

May I add a personal word to Science '56—congratulations on your graduation and may you find fulfillment in whatever you undertake. May you become the ancestor of a long line of Queen's men.

FALL CONVOCATION

Fall Convocation was highlighted by an address by Adlai Stevenson, former Governor of Illinois, during the ceremonies on Saturday, October 15th. Chancellor C. A. Dunning conferred the honorary degree of Laws on Mr. Stevenson, W. P. Thompson. president of the University of Saskatchewan and the Right Honorable Lord Tweedsmuir of Elsfield. All three men are distinguished in the public and educational life of the United States, Canada and the United Kingdom.

BUCHAN LIBRARY

Friday, October 14, 1955 marked the formal opening of the John Buchan Collection when Dr. L. W. Brockington chaired the ceremony in the Douglas Library. The John Buchan Memorial Collection came to Queen's in March 1955, through the good offices of the Rector and the generosity of Colonel and Mrs. R. S. McLaughlin. The book collection contains original bound manuscripts of his major publications, rare 16th and 17th century volumes, limited editions, private press books, inscribed presentation volumes and his own works handsomely bound. The main collection of about 3,500 volumes represents a wide range of subjects in the humanities and social sciences. Queen's is fortunate to have also his writing desk and chair from Oxfordshire.

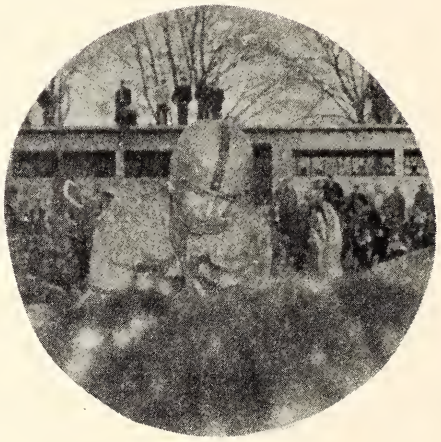
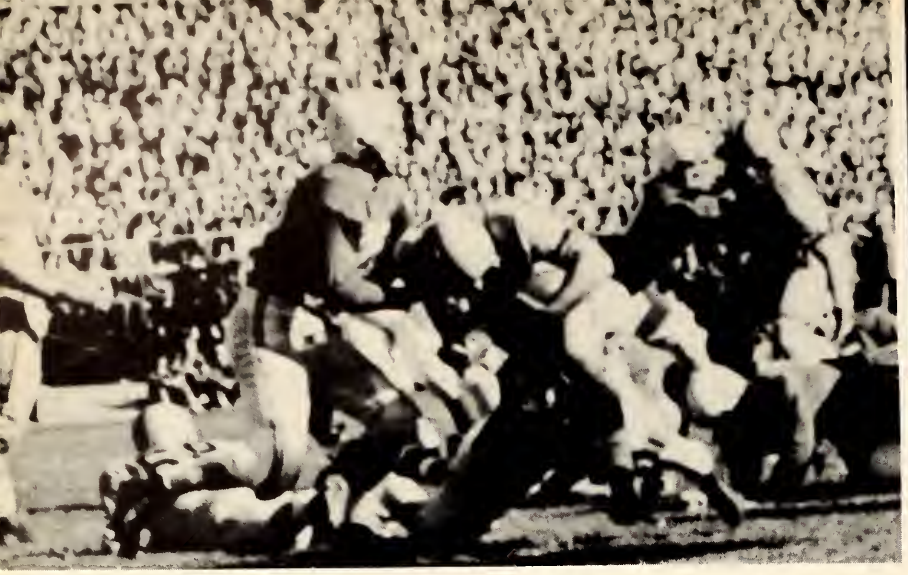
WE DID IT!

AFTER 18 YEARS WE BROUGHT THE YATES TROPHY BACK TO QUEEN'S.



HERE'S HOW WE DID IT



QUEEN'S 30
McGILL 10

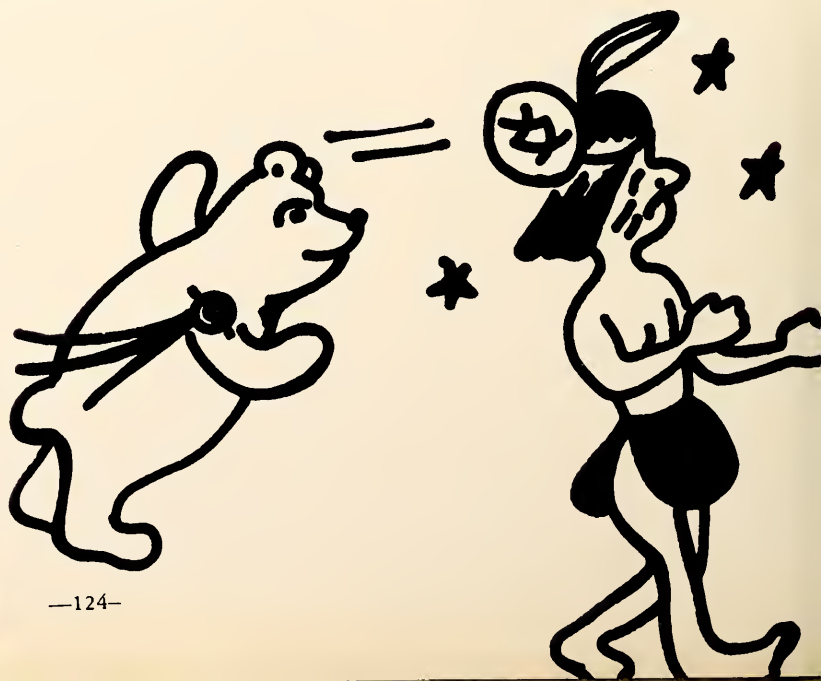
It was a beautiful fall day, a great day for football. The perfect weather was matched only by the championship performance of the Gaels when they rolled over the Redmen to the tune of 30-10.

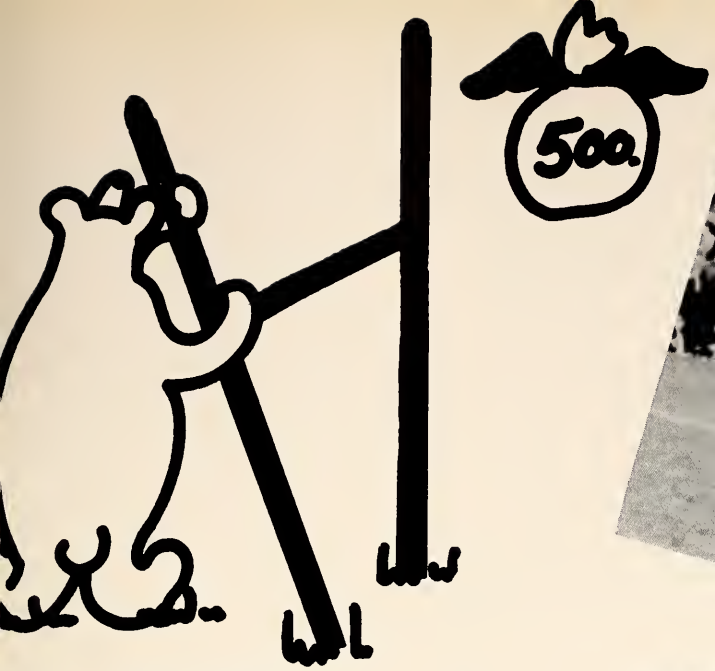
Queen's started the push when quarterback Gus Braccia scored the first TD from the McGill four yard line. A few minutes later Ron Stewart gathered a pass from Braccia at the ten and ran over for the Tricolor's second major. Jocko Thompson kicked both the converts and the quarter ended with Queen's leading 12-0.

Midway through the second quarter the Redmen tried to run out an attempted field goal. Jim Hughes, Lou Bruce, and Jack Abraham brought down the McGill receiver for an extra point.

Bob Hutcheson of McGill kept the Redmen from a shut-out when he carried the ball over for two unconverted touchdows.

Ron Stewart rounded out the score with two more touchdowns. Gary Schreider picked up a major when Braccia ran wide and tossed a long pass into his arms. The Tricolor line, led by Thoman, Hughes, and Bruce did a good job of holding the Redmen off.





QUEEN'S 6 TORONTO 11

It was a bright warm fall day in Varsity Stadium. The Gaels had made the long journey to Toronto and they were full of confidence, but unfortunately the Varsity ground attack was too strong for the Queen's aerial attack. History seemed to be repeating itself with the same old story, for the Gaels had fought to the front, clung tenaciously to their lead for most of the game, only to be edged in the dying minutes.

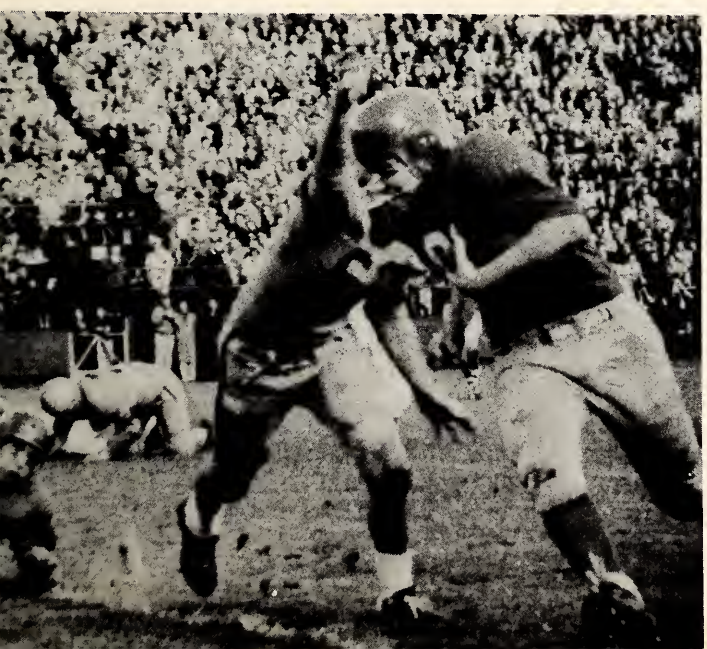
It was a game of fumbles and pass interceptions. At the end of the first half the score was a fateful 0-0. Hard luck started when Braccia threw a pass from behind the goal line to Stewart, who was in the clear. An incompleted pass bounced off the goal posts. That made it a third down and the Gaels were forced to kick. From there Varsity drove to their winning touchdown.

The Gaels, with only three minutes left, marched from their 13 to the Toronto 27. They accomplished this with two fine passes and rookie Dave Harshaw carried the ball for thirty yards. Braccia decided on a pass play to Bruce who was in the clear on the Varsity 7. Just as Bruce reached for the ball he was bumped by a Queen's player and the ball knocked from his hands. Instead of a first down and goal to go the Gaels were forced to try an unsuccessful pass on their third down.

Jocko Thompson sparked the Gaels on by twice kicking 54 yards.

Lou Bruce started the third quarter with a touchdown to bring the score to 6-0. After this early lead the Blues applied heavy pressure during most of the final quarter. The strong second line was too much for the tiring Gaels, some of whom had played most of the 60 minutes. The stronger Blues finally bulled their way through for two touchdowns.

The final score was Varsity 11, Queen's 6.



QUEEN'S 12
WESTERN 4

The field at Richardson Stadium was deep in mud. Rain had fallen continually for four hours. The only thing that could not be drowned was the Gael's indomitable spirit.

Queen's came to life when fullback Bill Surphlis exploded during the third quarter when he scored two touchdowns within the first three minutes. The second touchdown came after a 69 yard run.

The Tricolor missed their first opportunity to score when they fumbled on the Mustang's 5 yard line in the first quarter. Western recovered and with a powerful drive penetrated deep into the Queen's end of the mud bowl. A strong Gael line stopped them at the Queen's 10. Queen's took command when Jim Hughes, Clair Sellens and Bill Surphlis smeared the Mustangs for a 4 yard loss. Stewart and Lane again threw the Mustangs for another loss and forced them to kick. The kick was good and the resulting field goal gave Western a 3-0 lead.

The Tricolor fumbled on their own 46 and Western started to march to the Queen's goal line. Again the Gaels were forced back to their 10 yard line. Again the Gaels line led by McMahon, Lewis, Hughes and Abraham held off Western's attack. Western attempted a field goal which went wide for a single point.

Gary Schreider smashed through the Mustang's line when he ran the opening kickoff back to the Western 14 Bill Surphlis pushed through the Metras squad to their 9 yard line. Surphlis next galloped through the centre for the Gael's first touchdown.

Less than two minutes later, Tricolor gained possession on their own 41. Queen's opened up a big hole and Surphlis shot through the Western squad for a 69 yard touchdown.

As usual both of Jocko Thompson's converts were good. He also managed on this muddy field to punt an average of 41.4 yards.

QUEEN'S 25
WESTERN 17

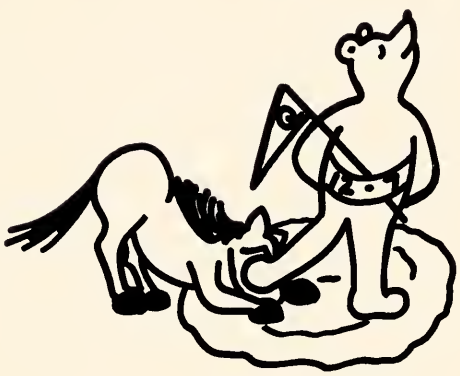
The Golden Gaels sparked by dynamic Ronny Stewart and the return of Al Kocman moved into a first place deadlock with the University of Toronto Blues and at the same time closed the door on Western's playoff hopes. The Gaels defeated the Mustangs 25-17 in Little Stadium. The Mustangs came within a point of catching the Gaels in the fourth quarter of this game but ran out of steam in the closing minutes.

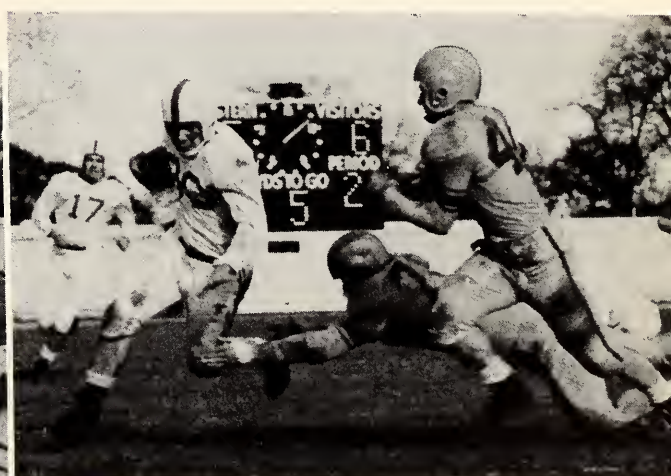
Western showed more offensive drive and fighting spirit in the losing game than they had in any previous game. Western had the Gaels in trouble early when they had possession of the ball deep in Gael territory on three occasions. They could only capitalize on one of these occasions when Simmons plunged over for a major. Stewart, a key figure, gathered in a pass from Gus Braccia to open the scoring for the Gaels with a converted touchdown. Stewart set up his own second touchdown converted by Thompson, when he recovered a Western fumble at the Western 19. Shortly before half time it looked as if the Gaels had written "finis" to the Western chances when Stewart scored his 24th touchdown of his college career by intercepting a pass near the centre stripe and running 65 yards for his third touchdown of the game. The score at the end of the half was 18-5.

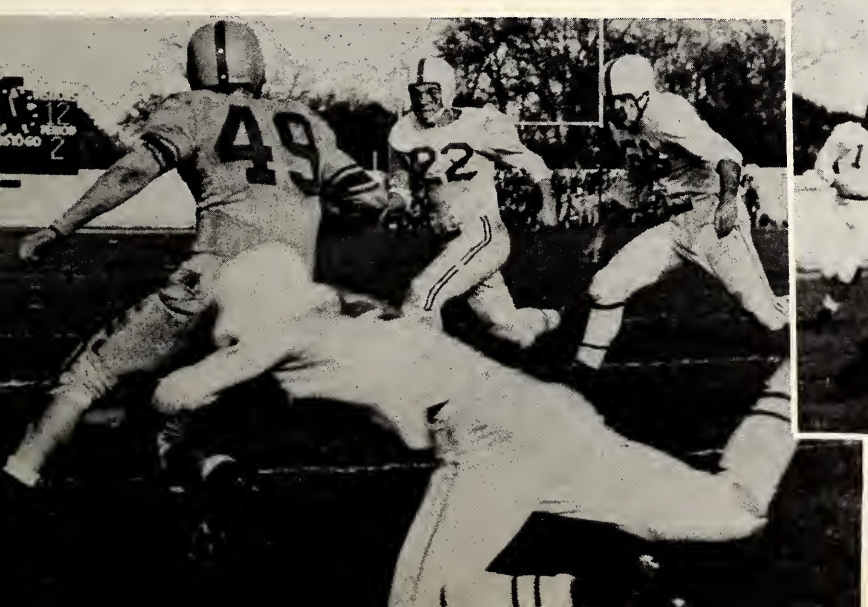
In the second half the Mustangs galloped back, displaying a strong ground attack, and marched 95 yards for their second touchdown. This time their convert was good. An interception gave Western possession on the Gael 20 yard line and from there they rolled for third and final touchdown. Labbett's convert put the Mustangs within a point of the Gaels, but the Gaels were not to be denied.

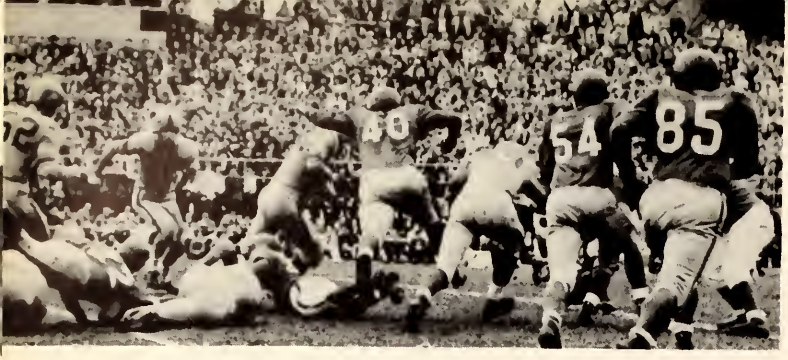
Thompson's kick into the end zone put the Gaels two points up. Western took over at their own 25, but the Gael line tightened and held them. In the final minutes of the game the Mustangs tossed a desperation pass. Hughes intercepted and carried the ball back for the final touchdown of the game. Braccia ran over for the convert.

The final score was Queen's 25, Western 17.









This was a kicker's game with the booters scoring eleven of the twenty-one points.

Jocko Thompson kicked two singles, one convert and a field goal. The field goal came with only 23 seconds left to play and gave the Tricolor a close 11-10 win over the powerful Varsity Blues.

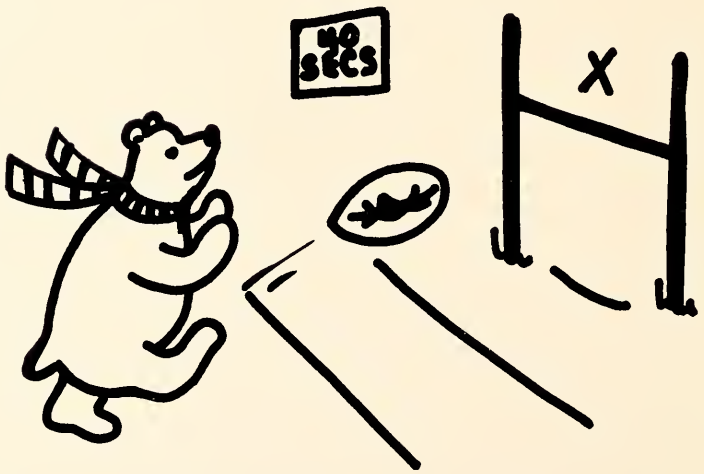
Gary Schreider brought the crowd to its feet in the first half when he made a spectacular catch of a 40 yard pass from Gus Braccia for the Tricolor's lone touchdown. The Gaels entered the last quarter with an 8-1 lead but the Blues came to life with a major by Muntz, The convert was good and the score hung at a fateful 8-7. Many of the Gael supporters could see the same old finish coming up. The Gaels were holding on to a hard fought lead, but their grip was slipping. The seemingly inevitable came to pass. With four and a half minutes left, Maik's 14 yard field goal put Varsity ahead 10-8.

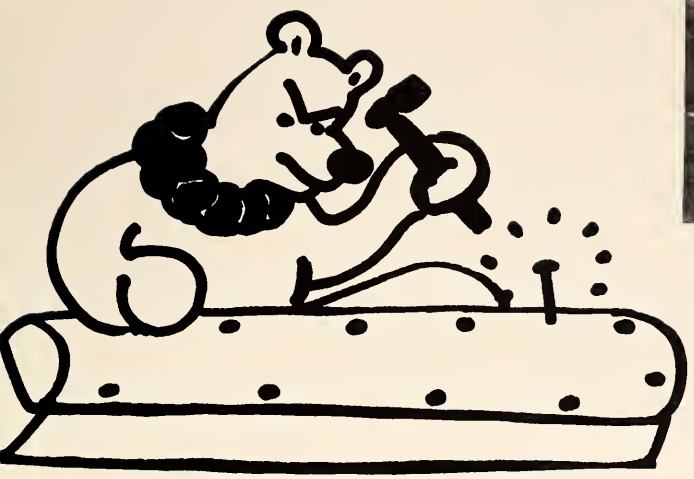
Everybody knew it was all over. Everybody but those stubborn, determined, wonderful Golden Gaels. The Gaels displayed true championship form and played as they had never played before. Stewart, with 2.20 minutes left, ran back Skrzypek's kick from Queen's 45 to the Varsity 49. Braccia hit Stewart with a short pass and down he went to the Varsity 16. Time was running out. 1.20 minutes were left and Queen's were against the sidelines. Stewart carried the ball across the field to the 13. The ball was still out of position for a field goal. Stewart finally set it up when he barged into position in front of the posts.

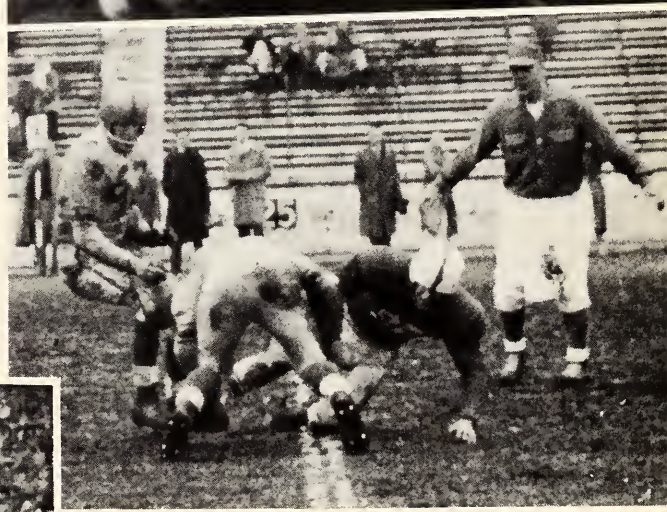
QUEEN'S 11
TORONTO 10

Jocko then took over. It was one of the most important field goals in the history of Queen's. Another win for Toronto would have put Queen's out of their rightful place in the playoffs.

The final score read Queen's 11, Varsity 10.



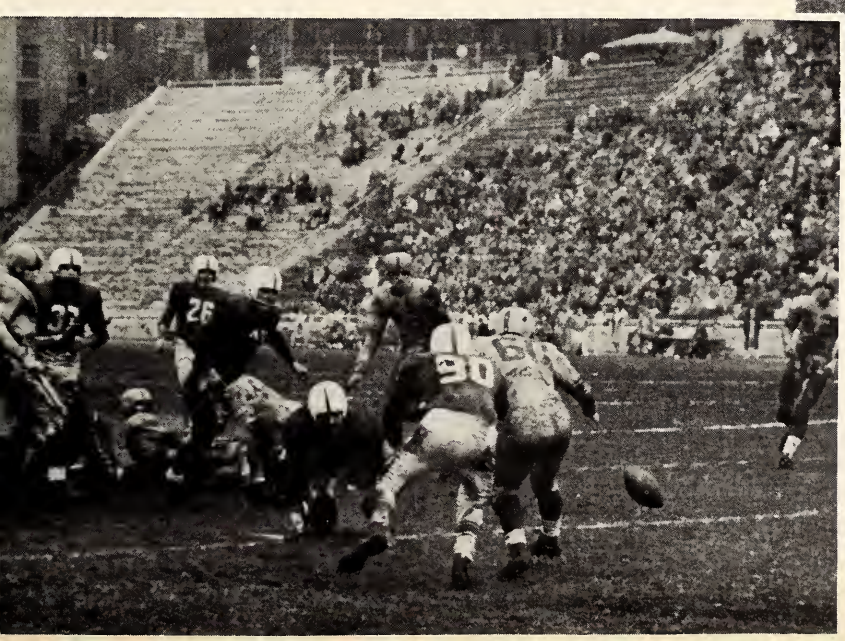




Weather in Montreal was cold and wet as the Redmen and the Gaels took the field. A chill rain fell during the whole course of the game. Gary Lewis and Al Kochman were not in the Gael line-up for this game. This made the constantly improving Redmen appear more dangerous than ever. Two touchdowns by Gary Schreider paced the Gaels to a 12-7 victory over the determined McGill team.

The Gaels had opened the scoring when Holland, of the Redmen, was roughed on Thompson's kick, early in the second quarter. Early in the game Carr's only completed pass hit Don Gagnon. who was over for the lone McGill touchdown. Braccia soon got this touchdown back by a third down pass to Schreider, who went over for his first touchdown near the end of the second quarter. Schreider, finding a hole off right tackle, ran 49 yards for his second touchdown that was converted by Thompson. This brought the third quarter score to 12-6. McGill ended the scoring when Cruikshank was roughed on Ferrabee's kick.

First place had been secured and only 60 minutes of play remained between the Gaels and the league championship.



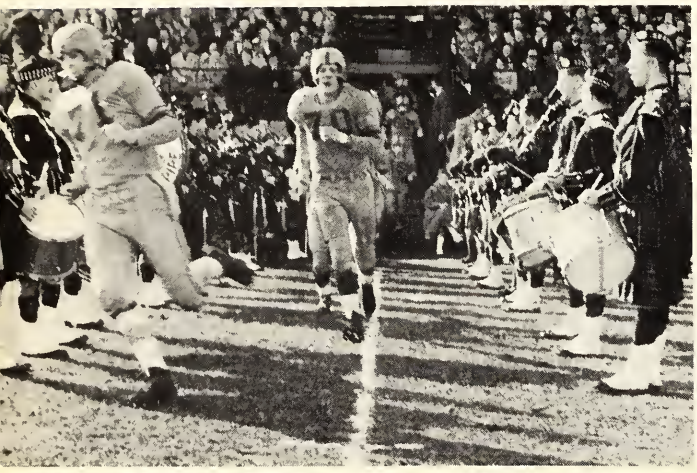
QUEEN'S 12
McGILL 7

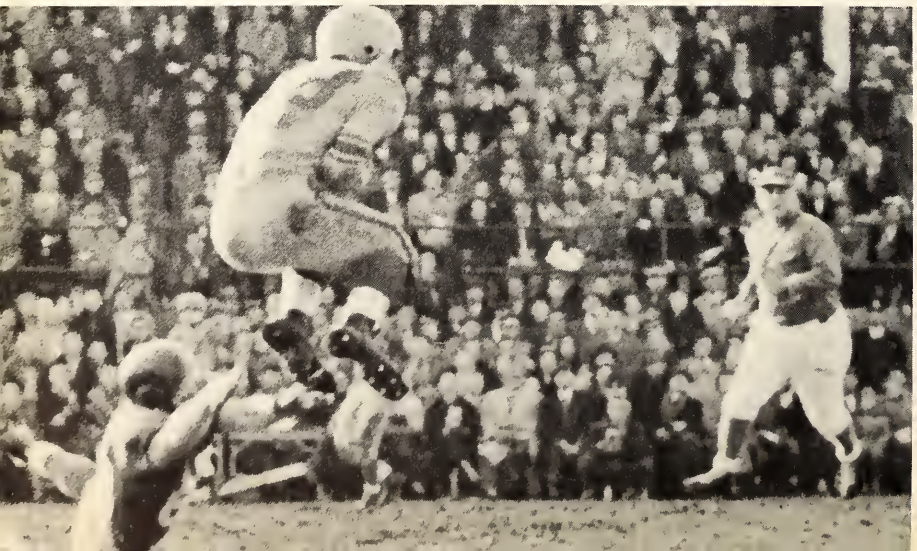
Their Finest Hour

A crowd of 13,000 waited tensely for the opening kickoff of the intercollegiate championship game. Showers during the past 24 hours had left the field muddy and this threatened to upset the Gaels vaunted passing attack.

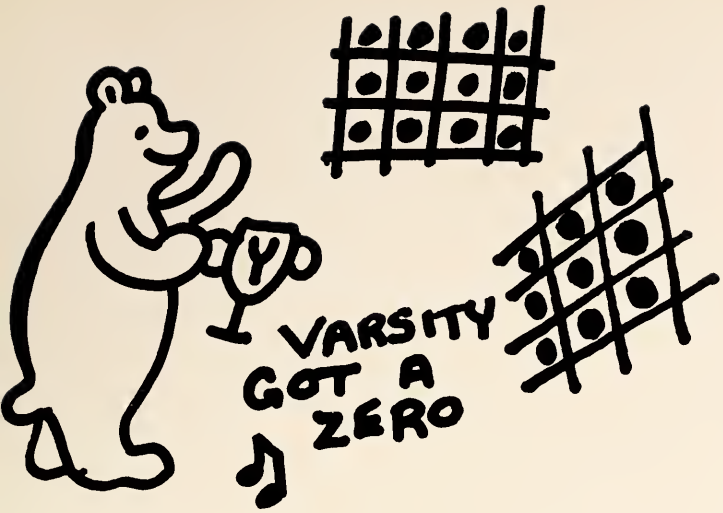
The Gaels, who had finished first during the regular season two points ahead of the runner-up Blues, ruled as slight favorites. An added reason for this was the fact that the Gaels hadn't lost a game in Richardson Stadium for the past two seasons.

Varsity considered their line invincible; therefore in their preparations for this game they had concentrated on setting up a pass defence to stop the Gael's passing attack. 'Silent Frank" Tindall was for no part of a continuation of the year long lament and "wait until next year" cries that had been emitted after last year's semi-final. This year he had adopted a slogan made famous by the immortal Knute Rockne: "A team has to make its own breaks if it wants to win."





NOVEMBER 12, 1955
QUEEN'S 18
TORONTO 0



Nearing the end of a tight, hard fought first quarter, ocko Thompson had moved the Gaels out in front 3-0 y booting a field goal from the 22 yard line. A few vell chosen words from their chief mentor and the Gaels vere in no mood to let the hapless Blues down easily. On he field in the second half the Gaels were playing a game hey were determined not to lose. Jim Cruickshank, play- ng his final game for the Gaels, intercepted a pass during he first few minutes of the second half and ran the ball ack to the Toronto. 52. A penalty against Varsity, two ine plunges by Gary Schreider, a twenty yard dash by Ron Stewart around the end, set the ball on the two yard ne. From there Braccia scored a touchdown but Jocko Thompson failed to convert. Gus Braccia, playing with his arents in attendance, played probably the finest game of is career. Certainly this was evident four minutes after he first touchdown when he faked to Schreider then o Stewart and ended up by handing that ball to Surphlis, vho raced 77 yards for the second Gael TD which was onverted by Thompson. Jocko added four more points o the already impressive Gael 14-0 lead with a 27 yard ield goal and a single point to close the scoring.

HERE'S THE COACH

RESUME OF THE 1955 FOOTBALL SEASON

At the beginning of the 1955 season the Gaels football team was like a diesel engine, we had speed and potential power but lacked the element to set it in motion. Then along came a read-headed spark plug and we were off.

As usual, we had several inexperienced players in key positions and while most of these boys came along very well, it still took a post-season game for the team to reach its peak, when the long extra hours that Hal McCarney and Jim Jerome spent on individual linemen paid off in reducing the incidence of error to the extent that Queen's completely dominated the play in the final. This to coaching staff was much more gratifying than the acquisition of the championship.

For the boys who are due to graduate: Lou Bruce, Al Kocman, Ron Lane, Clair Sellens, Frank Geard, Jim Cruikshank, Vic Uzbalis, John Perry, John Milliken, Scott Latimer and Claude Root, their final year will always be a treasured memory and we at Queen's will never forget the very large part that they played in achieving that success.

We are also indebted to that pottergin, the Phantom, who so wholeheartedly joined our forces in the latter part of the season. This propagator of malicious mischeif was the unseen hand that deflected our opponents passes, the invisible foot that tripped their tertiaries at critical moments, and the intangible force that helped us make crucial blocks.

What he looked like is a matter of conjecture, but actually we feel that he was the reflection of the efforts and attitude of everyone connected with the team—The Spirit of Queen's.

QUEEN'S INTERMEDIATE FOOTBALL 1955

by Jake Edwards

Unlike their senior brothers of the football gridiron, the 1955 edition of the Queen's Comets came up with the most dismal season since before the war. Entered in a newly formed league after having been withdrawn from Ottawa-St. Lawrence Conference play, the Intermediates were completely outclassed by Toronto, Western, and O.A.C., and on three successive Saturdays, suffered the humiliation of having been beaten 35-0, 56-1, and 53-0. This situation in second-team football at Queen's heretofore one of at least contention with opponents, was due to two major factors. One was the refusal of at least twelve near-senior players to continue with the Comets when cut from the Gael squad, and the second was an unusual lack of candidates for line positions from the very first of the year. The former fault can be overcome, I think, by adoption of a policy which will prevent players who insist on playing only for the senior Gaels from being given a second chance in following seasons. The latter fault is one over which no one has any real control, and it is to be hoped that in future years, Queen's students will respond more readily to the call for football.

Despite a losing season of play, the Comets put up some very creditable football for most of the year, stubbornly unwilling to yield even to heavier, more powerful teams like the Toronto Baby Blues and the OAC Aggies. Only one player was promoted to the Gaels, end John Perry earning this step by sterling and hard-hitting defensive play. Gordie Robinson, Bud Day, Paul Corbett, Terry Dolan, and Alan Robertson were standout players on defense all year, while speedy halfback Don MacNay could be a comer in future senior ranks, along with Barrie Taylor, Charles Lewis, and Chuck Safrance.

Only two players from the Comets are leaving the University—Captain Eddie Mallard and inside John Ashley. The former deserves a great deal of credit for bolstering the Comet's team spirit throughout a trying season of play. Mallard has been a Comet for four consecutive years, and has always proved to be a steady, hard-driving team player, while Ashley has been a keen and dependable lineman.

SENIOR INTERCOLLEGIATE BASKETBALL

INTERCOLLEGIATE BASKETBALL TEAM

STANDING: Greg Stone, Al Mills, Art Warren, Bruce Page, Bill Curr, John Milliken, Jim Harrison, Andy Haydon. FRONT: Frank Tindall, Coach, and Charles Latimer. MISSING: Guy Papointe, Bruce Findlay, Manager.

SENIOR INTERCOLLEGIATE BASKETBALL

The curtain went up on the 1956 basketball team when in exhibition games they tackled Clarkson and St. Lawrence University. This game saw Ron Stewart and Jim Hughes, two of Tricolor's football stars come out to bolster the injury riddled ranks.

The official season got off to a bad start when the Mustangs trampled the Tricolor crew 74-42 in the Queen's gymn. The Gaels fought every inch of the way, but the Mustangs were superior in every department except foul shooting in which Queen's hit for 70%, while Western cut 64% of their shots. Top point-getters for the Gaels were Stone with 16 and Bill Kerr with 8.

The Tricolor squad played their second league game against the McGill Redmen. McGill managed to nose out Queen's by a score of 68 to 60. Jim Harrison was the top scorer for Queen's with 27 points. The Gaels were never ahead but they did manage to narrow the Redmen's lead to one point in the first half of the game.

The third game of the season against the Marauders again ended in defeat (65-59). This gave the Gael Hoopsters sole possession of last place. The Gaels held the lead on four of five occasions. The Gaels were "out-heighted" and this probably made the difference in the final score. Greg Stone piled up 20 points on seven field goals and six free throws. The Tricolor out fouled their opponents, picking up 26 penalties to "Macs" 20.

The next week the Golden Gaels went on the road playing McMaster and Varsity. The Tricolor lost to Varsity at Toronto 98-59, and on Saturday they lost to McMaster 69-63 in Hamilton.

The Tricolor again met defeat when they tackled the league-leading Mustangs. The Mustangs rounded out the score to read 84-56. The following night in Windsor they dropped a game by a score of 85-51 to the Purple Raiders.

A close game was fought when the seniors again tackled the McGill Redmen. The Gaels came within a few seconds of winning their first game. It had been anyone's game from the start. Up until the last minute of the game the Gaels had the lead and then the Redmen scored to take a 60-59 lead. A general melee started when a Gael player bumped Leon Duplessis of the Redmen. Duplessis took a swing at his check and a fight erupted between both teams. The "refs" assessed three fouls against Queen's and one against the Redmen. Duplessis sank two of his three shots while Milliken sank the Queen's lone shot. Time ran out and the Gaels did not have time to equalize the score.

The final game was played against the University of Toronto. It was generally considered to be one of the best games of the season. The Gaels at one time narrowed Toronto's lead to three points. The final score was a 69-64 win for Toronto.

Al Lenard (Coach)

Ron Klingspon (Manager)

BASKETBALL INTERMEDIATE

The Queen's "Jayvees" this year fared slightly better than the seniors. But throughout the season they were continually at a handicap when their taller opponents controlled the backboards. At the first of the season they won a thriller from Ryerson. The following week they were dropped 65-56 by the Kingston Warren Orphans.

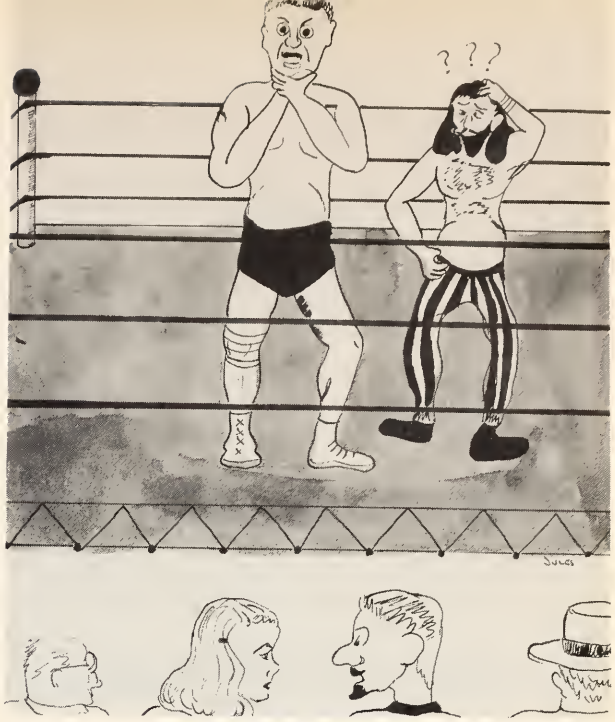
The "Jayvees" then took to the road where they lost to the Baby Blues 69-59 and to Ryerson 67-66. The Ryerson game had ended tied 56 all. But within a few seconds of the end of overtime the final score read 67-66. The intermediates continued on the road to drop a pair of games to Western 67-42 and Assumption 88-58.

Al Lenard (coach), Gus Turnbull, Fred Nogas, Bud Day, Lloyd Budgell, Bill Horley, Jim Siltala, Dino Buratto, Danny Bazic.

INTERCOLLEGIATE WRESTLING

The Queen's contingent this year finished where the boxers finished last year, in last place. History repeated itself in boxing and football and it probably will in wrestling as Jim Saylor continues to rebuild his team.

Jack Underwood, Ted Courtnage, Jim Plummer, Peter Gerster, Bill Moss and Dave Nowlan fought valiantly but their rivals were just too powerful. Wayne Hosking, although he wanted to fight, the doctor decided against it due to an injury. These fighters, with the exception of Ted Courtnage, will be back next year.



He Bit His Adams Apple.

STANDING: J. Saylor, Coach; D. Nowlan, 157 lb.; B. Moss, Heavy; P. Gerster, 191 lb.; W. Hosking, 177 lb.; G. Felgate, Mgr.
KNEELING: J. Plummer, 167 lb.; J. Underwood, 147 lb.; T. Courtnage, 137 lb.

TRACK

R. SERIGHT Coach

The University of Toronto trackmen won the senior intercollegiate track and field championships. But the small Queen's entry left nothing to be desired.

The Queensmen earned 13 points when Spence Hodkinson won both the 120 high hurdles and the 220 low hurdles and Ron Curtis came second in the Javelin throw.

In the intermediates Neil Tate garnered a second in the pole vault and a second in shot put. N. McNeill came third in the 444. Lance Bailey ended a third in the three mile. Ed Saunders and Johnson and Varga comprised the rest of the team. Johnson made the finals in the 100 and 220 while Varga came fourth in the 440,

Queen's came in third in the harrier. Sam Campbell finished third in this event.

INTERCOLLEGIATE TENNIS

The Queen's golf team, composed of Ray Coole, Norm Thompson, Bill Shearson and Don Keenleyside, after finishing a close second in 1952, and 1954, dropped to fourth place in the 1955 Senior Intercollegiate Golf Tournament.

Western University won the Ruttan Trophy, emblamatic of the team championship, with an aggregate score of 632 for eight rounds. Toronto was second with 655, followed by McGill, last year's winners, who had 664. Queen's, with 672 was fourth and University of Montreal was fifth with a total of 753.

The individual championship award, the McCall Cup, was retained by Ray Coole of Queen's, who held it last year. He finished the 36 holes with a score of 156, one stroke ahead of J. Knechtel and R. Louch, both of Western and B. Powell of McGill. Other Queen's scores were: Norm Thompson, 163; Bill Shearson, 172 and Don Keenleyside, 181.

BACK: Bruce Page.
MIDDLE: David Low, Hugh Conn.
FRONT: Phil Clapp.

INTERCOLLEGIATE GOLF

Ray Coole, Don Keenleyside, Norm Thompson. Absent: Bill Shearson.

Queen's narrowly lost out in the Intercollegiate Tennis Championship when Varsity nosed ahead for a one point lead. Queen's were represented in the tilt by Hugh Conn, Dave Low, Bruce Page and Phil Clapp.

Bruce Page won the first round singles match but met defeat in the second round. Dave Low, with a bye and a pair of wins behind him, entered the finals. Unfortunately he lost out to Hugh Murray McMaster, who took the singles title. Dave Low and Hugh Conn defeated McMaster in the doubles entry. The tournament decision hung in the balance as the Queen's doubles opposed Toronto. Toronto captured the title with a hard fought 6-3, 4-6, 7-5 win.

INTERCOLLEGIATE BOXING

Queen's again moved to the top in the sports world when they decisively captured the intercollegiate boxing championship. The Queen's men captured five of the individual titles and scored a total of 22 points. Their nearest competitor, the University of Toronto, counted only 12 points.

Andy Gunyon with his lightning-like reflexes gave the Tricolor a split decision for the 140 pound championship. It was the closest bout on the card and a sign of what was to come.

Doug Kilgour, in the 145 pound division, gained a unanimous decision over O. A. C's Carswell. Kilgour's experience and rugged punching were just too much for Carswell.

Queen's Walt Roberts and McGill's Puddicombe squared off in the 150 pound contest. Walt's advantage in reach enabled him to score often with a hard left jab that brought Queen's their third straight championship.

The fourth championship came when Ralph Pohlman tore into Toronto's George Masuda. Ralph was in command from the opening bell. Masuda was game, despite being floored in the first round, and finishing with a broken nose.

Dave Harshaw (165 pounds) met the captain and best boxer from Toronto, Bill Sidney. Dave traded blow for blow in the first round but ran out of steam in the second. Sheer determination kept Dave going until half way through the third round when the fight was stopped.

The 175 pound match was a pure slugfest with Jim McCulloch tackling McGill's Woolgar. Unfortunately, Woolgar was too much for McCulloch, who lost on a T.K.O.

Jack Abraham decisively retained his heavyweight crown when he knocked out Toronto's Cairns in the second round.

Queen's entered seven fighters and they all made the finals. Jack Jarvis' prediction came true when he said "If my fighters don't win, whoever beats them will be champions in their respective groups."

B. PERCIVAL

The Tricolor Hockey team is definitely an improved team this year. Barring too great of a loss through graduation, and that they continue to improve, then Queen's once again will be able to present a team in the senior Intercollegiate Hockey League.

The season started with a close game against Ryerson, with Ryerson on the short end of a 5-4 score. It was an exciting game with Queen's scoring twice with less than three minutes to play. Barry Percival shot the puck across for two of the Tricolors points, while Ian MacKay and Don Keenlyside and "Bad Man" Valiquette all came through for a tally. The next game was against the seasoned and top rated St. Lawrence University squad. Experts rate the Larries as the number two squad in Eastern United States. The Tricolor fought a hard battle but lost by a 6-2 score. Roy Hoffman and Gary Ede accounted for the Queen's scoring. The powerful Clarkson College, undefeated in eleven starts, had their winning streak tarnished when the Gaels tied them 4-4. Roy Hoffman, Ron Valiquette, Carl Nurmi and Gary Ede came through with goals.

In the next tilt the Tricolor pucksters tackled O. A. C. They left little to be desired as they outplayed, outbumped and outscored the Aggies to the tune of 5-3. Carl Nurmi, Ray Harmiston and Ray Hoffman did the scoring for the Tricolor. The next game with O. A. C. ended with a 5-4 defeat. Percival, Osborne, Hoffman and MacCrae were the marksmen for Queen's.

The Tricolor sought their revenge when they whipped Ryerson 9-4. Ray Hoffman flicked the lights four times. Art Truax twice bulged the twine, while Keenleyside, Nurmi and Hermiston counted once.

The Tricolor dropped the final game with the Clarkson College Golden Knights, though Don Keenleyside and Roy Hoffman clicked to deadlock the two clubs at a 2-2 score; Clarkson then applied pressure and moved ahead to a 4-2 victory.

INTERCOLLEGIATE BADMINTON

Toronto retained the championship without losing a match, while McGill successfully edged out both Western and Queen's by only a few points, to cap the runner-up spot. Western took third place, beating the Queen's by the narrow margin of two points, while MacMaster, a newcomer to the league, held the last position. Ed Koenig and Keith Armstrong, making up the first doubles team for Queen's won one out of a possible four matches, while the second team of Chris Armstrong and Brian Bartels captured three of their four matches. Ed Koenig, Chris Armstrong and Keith Armstrong each gained one win in their singles, while Brian Bartels was successful in amassing three victories out of his four games. The members of the Queen's badminton team would like to take this opportunity to thank Mrs. Betty Colbourne and Doug Brant, who generously devoted much of their time to coaching the team. If the team improves as much in the coming year as it has in the past, Queen's should move up in the final standing in next season's tournament.

The Queen's badminton team of 1956 showed vast improvement over the previous years team in the Intercollegiate tournament, held at this university on the third and fourth of February. In the top spot for Queen's was the team captain, Ed Koenig, who graduates this year; while Chris Armstrong, Keith Armstrong, Brian Bartells and Sandy Lewis, held second to fifth places respectively. In the competition the four top players from each of Queen's, Toronto, McGill, Western and MacMaster, competed in the men's singles and doubles. The powerhouse team from the University of Toronto was led by both the Canadian Senior Men's singles champion for 1956, Pete Ferguson, and last years runner up, Jim Carnwith.

INTERCOLLEGIATE SKIING

The Tricolor team won six of the seven individual and combined events but took second place to McGill in team standing. They lost to the McGill team who had only one first but a larger number of seconds and thirds. Al Poutanaen won the skimeister award for being the outstanding skier at the meet. He put together two jumps of 97 feet for a victory over Murray Elder of McGill. Elder's best jump was 92 feet.

The Alpine combined was won for Queen's by Arne Midgley when he came first in the slalom and third in the downhill. His time for the slalom was one minute 11.9 seconds and 1:13.5 for the downhill. Keith Harris and Pete Hobden finished fifth and eighth respectively in the cross-country.

In the final team standing, McGill shaded Queen's by 575.8 points to 568.4. Toronto placed third with 546.8 and Laval was fourth, followed by the University of Montreal.

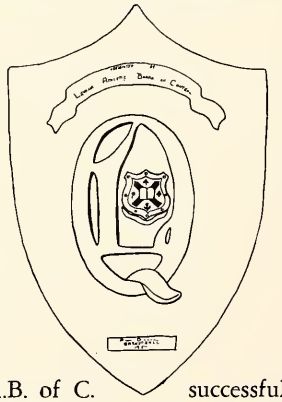
LEVANA ATHLETIC BOARD OF CONTROL

BACK: S. Joyce, S. Robertson, M. Lyons, B. Bell, D. Enright, M. Bennett, B. Kinzinger.
CENTRE: M. Grant, Mrs. Colbourne, L. Jennings (Pres.), Miss Ross, J. Reid.
FRONT: P. Levis, P. Stewart, D. Desjardins, M. Barr, J. Zeigler, G. Kerr, N. Chouinard.
ABSENT: M. Matheson.



This year the L.A.B. of C. created a plaque which was designed by Pat Lawther, Ph.E. '56. It will be awarded to championship intercollegiate teams and individuals on intercollegiate teams who are champions in their division.

Liz Jennings and Mary Fardell, both in PH.E '56 will be the first members of Levana to receive plaques. Liz won the first singles tennis championship in 1954 and Mary won the second singles tennis championship this year. Congratulations!

The Levana Athletic Board of Control, L.A.B. of C. has, as its purpose, the administration and promotion of Intramural and Intercollegiate athletics for Queen's women. The objective is to provide a sport for everyone, and to encourage every girl to take part in at least one sport. The L.A.B. of C. of '55-'56 has worked hard to reach this objective.

Intercollegiate teams displayed great athletic prowess in their endeavors this year. None succeeded in capturing a championship, but the Archery, Volleyball, and Basketball teams came second, and the Tennis team tied for second place. The Badminton team came third, and the Swimming team team fourth. Congratulations to all team members! Intercollegiate teams also participated for the first time this year, in an invitation mixed badminton tournament.

On the Intramural scene, bowling is the newest addition to the sports program, and it has proved very successful.

Although every team fought hard, '56 managed to come out on top, and received the Levana Athletic Trophy. '58 managed to cop a majority of the championships, but '56 had more participation in proportion to their numbers. Congratulations to '56!

The L.A.B of C. again held a reception for the Freshettes to introduce them to the gymnasium, and athletics at Queen's. It was a very enjoyable evening. The L.A.B. of C. also sponsored their second annual ice revue, "A Holiday on Ice," which was more extensive than ever before and a great success.

To all those who participated in athletics this year—many thanks for your enthusiasm. We hope you had fun, and will continue to take part in your athletic endeavors.

Liz Jennings, President

THE COACHES

MISS MARION ROSS, B.A., M.A.
Asst. Professor of Physical Education

Miss Marion Ross, who hails from Picton, N.S., attended high school in Lethbridge, Alberta, obtained her diploma in Phys. Ed. from McGill, a B.A. from Queen's, and an M.A. from Columbia. Before joining our staff, she was Director of Phys. Ed. for the Brantford Y.W.C.A.

While attending University, she was outstanding in basketball and track. During the past twenty years, she has coached many of our intercollegiate sports, but this year concentrated on her championship archery team.

Miss Ross claims that: "Girls entering Queen's show an improvement in fundamental skills in sports over earlier days. We hope that more students will participate in our intramural program."

Miss Dorothy Leggett, from Ottawa, Ont., received her senior matric. from the Ontario Ladies' College, Whitby, Ont., her B.Sc. (P.E.) from McGill, and her M.Sc. in Phys. Ed. from the University of Wisconsin. Before joining our staff five years ago, she taught at the Ottawa Ladies' College and the University of Wisconsin.

From her experience in competitive swimming, while attending University, Miss Leggett has contributed greatly to our intercollegiate swimming team. She also coached the intelcollegiate volleyball team for the first time this year.

Her comment on our girls' sports is that: "The girls at Queen's rank top honors in Sportsmanship. They lose as gracefully as they win, one of the prime tests of character."

MISS DOROTHY LEGGETT, B.Sc., M.Sc.
Lecturer in Physical Education

MRS. BETTY COLBORNE, B.Sc. (P.E.)
Lecturer in Physical Education

Mrs. Betty Colborne, who is lecturing this year, comes from Sussex, N.B. She attended high school in St. John, N.B., and at Mt. Allison. From McGill, she received her B.Sc. (P.E.) and obtained her Gymnastic Diploma from Lillsved Gymnastikskole, Sweden. Before coming to Queen's two years ago, she was Physical Director for Women at Dalhousie University and then at the Y. W. C. A., Hackensack, N. J. She was also an instructor for the Sheepwatch Experimental School, Surrey, England, and a teacher for the Protestant School Board in Montreal.

Mrs. Colborne participated in intercollegiate tennis, badminton, basketball, swimming, and ice hockey while at University. This year she coached our tennis, badminton and basketball teams.

Her farewell message is: "I hate to leave," and our reply is a genuine: "We wish you were staying."

CONGRATULATIONS TO LEVANA '56

Through their keeness and participation, Levana '56 has won the Athletic Trophy. They managed to win only one Championship, but were always just within reach of Levana '58, who won the majority of the Championships. The members of the year were always entered in every sport, whether they had played it before or not. It was this faithful participation and strong year spirit that brought the award to the graduating year. Thanks are also due to the Athletic Sticks for their fine work over the year.

On behalf of '56, I would like to thank Miss Ross, Miss Leggett and Mrs. Colbourne for their guidance and interest throughout the year.

To '56—may you always keep the spirit of good sportsmanship wherever you go!

Jan Roberts.

Admission to the Tricolor Society shall be regarded as the highest tribute that can be paid a student for valuable service to the University in non-athletic, extra-curricular acivities.

Admission to the Tricolor Society shall be limited to post-graduates, and to students in the second term of their final year, who, maintaining a satisfactory academic standing during their undergraduate course, have rendered valuable service to the University in non-athletic, extra-curricular activities, namely the major offices of student government, journalistic work, debating, dramatics, and to such other students as they may by unanimous decree of a special committee appointed for this specific purpose, be recommended for admission to the Tricolor Society.

These are the people who have been selected as members of the Tricolor Society in 1956.

THE ALMA MATER SOCIETY 1955-1956

This was a year of attack and yet retreat. The unwise and over-enthusiastic activity of Queensmen on home and foreign soil, along with the unfavorable press publicity, precipitated a crisis. The respect and dignity of the students' government was at stake.

To cope with the problems, the executive instituted prohibition at football games for the problem at hand and instituted policies to prevent future occurrences, and thus rectified the unfortunate circumstances that had been created.

The ultimate power and responsibility of the A.M.S. Court was exemplified and felt in the tense atmosphere of Grant Hall when the Chief Justice brought in his decision of the trial of six sciencemen, finding them guilty of breaking into womens' residences.

The Society was successful in persuading the Alumni to reduce the football dance admission from $2.00 to $1.50.

The Society sent the A.M.S. Vice President and the NFCUS Secretary to the annual National Federation of Canadian University Student's Conference in Edmonton. Queen's accepted the mandate for increased income tax exemption for University students. The Queen's delegation pressed for a stronger National organization and for a compromise attitude with the Communist I.U.S.

W.U.S., in addition to sending two delegates to the annual conference in Saskatoon, set an unprecedented record in Treasure Van sales and in their Fund Raising campaign.

Arrangements for a better student seating plan at football games were drawn up and will be in effect in the fall of 1956.

After much debate, it was decided that the A.M.S. purchase $1,150.00 worth of band instruments. The increased quality of music was clear when the Band held their most successful Band Concert.

Lord Tweedsmuir gave the A.M.S. Lecture when he came to Queen's to dedicate the Buchan Library to the University.

Two delegates of the I.R.C. were sent to the Model Security Council held at St. Lawrence University in Canton, N. Y., and once again they returned with the cup for the best delegate.

"Painted Doll," this year's Revue, presented quality and enjoyment to those who attended, but was not as financially successful as in previous years. The Kick Line attended the McGill Winter Carnival and was warmly applauded for their excellent performance.

Debating and Queen's Model Parliament succeeded in regaining their influence as important campus organizations. After a lapse of a year, Open House again was held and an estimated two thousand visited the campus. Arrangements were finally completed for the sale of the official Queen's scarf.

The Annual Meeting saw a new constitution for the A.M.S. Court approved and alterations to the constitutions of the Tricolor Society and the Tricolor Yearbook. At the conclusion of the meeting Mr. Kip Summers handed his gavel to Mr. Riche Milane, the newly elected President of the Alma Mater Society.

TRICOLOR STAFF

Tricolor '56 has been an attempt to record a year in the life of Queen's, and thus a part in the shaping of the history of a great University. We have tried to capture the comic and the serious, the levity and the dignity, the glorious and the commonplace, which have all been mixed together this past year. May this book always recall to you memories of one of the "Golden Years."

It has been my good fortune to have been the editor of such an industrious and willing staff. They have worked long and hard to bring you this book and they deserve much credit. To each one of them, and to all those who have so kindly given their time, advice or encouragement, I am truly grateful. Thank you.

JOURNAL STAFF

After four years on the Journal staff it is difficult to write a farewell message. Looking back over the past year I am convinced that this has been one of the most exciting years for the Journal in terms of important news stories and an almost inexhustible supply of editorial material. It is only surprising that issues which at one time threatened to destroy the mental equilibrium of the entire staff have now faded to their proper persective, and may be recalled calmly.

The Southam Trophy was a fitting recognition of the work put into this year's Journal. This is the first year the Journal has won this Trophy, but it could not have done so without the cooperation and hard work of the entire staff. No editor could have asked for a more enthusiastic and dedicated staff than that of this year. My appreciation goes out to every member of the editorial staff, and also to those people, who, though not having any special position on the masthead, still put in an appearance night after night and gave help where it was most needed. Since many of these people will be returning next year, I feel assured that the quality of the Journal will continue to improve.

DEBATING CLUB

Left to right: L. Leafloor, P. Zarry (Pres.), N. MacGregor.

DEBATING CLUB EXECUTIVE

For the Queen's Public Speaking and Debating Club, 1955-56 was an exceptionally successful year. An encouraging attendance of the freshman year at the first few meetings gave the club a good start to the session, during which a comprehensive programme of debates was staged. The Executive aimed to give as many members as possible a chance to participate in different types of debate. Accordingly, resolutions varied from the controversial "That Quebec nationalism is detrimental to Canadian Unity" to the speculative "That Mt. Everest is too low" and the problematic "That this house regrets the modern woman." Experience in public speaking was fostered by impromptu "hat-nights" and improved by critiques from faculty judges in adjudicated debates.

Competatively, debating the regional topic in the Inter-University Debating League, on the motion, "Resolved that Canada should have a separate codified Bill of Rights" Queen's overcame R.M.C., only to lose to Bishop's College in the second round. At the McGill Winter Carnival Debating Conference, Queen's defeated the University of Vermont and New York University, but fell to Loyola in the third contest. Other inter-collegiate debates took place with McGill, Carleton and R.M.C. The Model Parliament, held under the auspices of the club, was a fitting climax to the year's activities.

For the future, the club would seek to improve the organization of the Parliament and the Inter-Faculty Tournament, and by planning an imaginative programme, to stimulate the interest in debating which has been marked on the campus throughout the yast year.

UNTD

The summer of 1955 saw Cadets of Queen's, UNTD, in almost every shore establishment and ship of the Royal Canadian Navy. A few were privileged to train with the United States Navy Midshipmen in Norfolk, Virginia. One Cadet completed the first half of his training towards becoming a naval pilot.

The West Coast training was conducted from HMCS Royal Roads, where three hundred Cadets from all parts of Canada gathered to spend the summer. Three newly converted Frigates were assigned exclusively to training. One hundred cadets embarked in these ships for each of three cruises lasting for five weeks. While not at sea, the Cadets were instructed in Navigation, Seamanship, Communications, Gunnery, Anti-Submarine Warfare. Cadets of the Supply, Electrical, Engineering, Ordinance and Surgeon branches were instructed and employed in their own fields.

Similar training existed on the East Coast, where the Cruiser HMCS did the majority of the sea duty with Cadets aboard. Many other ships of both coasts had Cadets under instruction and employment in fewer numbers in order to diversfy and add greater responsibility to the training received by senior Cadets.

Two Queen's Cadets distinguished themselves during this last year of summer training. Acting Sub-Lieutenant G. Sedgwick was the recipient of the Department of National Defense Sword, presented to the outstanding senior Cadet training on the East coast. Cadet K. van Dalen was awarded a dirk for being judged the best cadet of his Division.

The past winter has had many "extras" as well as the regular weekly parades at HMCS Cataraqui. During the fall term the Cadets took part in the change of command ceremonies when CDR A.G.C. (Professor) Whalley, RCN(R) was relieved by CDR J. C. Chane, RCN(R). On November 11 the Cadets of all three services at Queen's participated in the Remembrance Day services on the campus. In February, the Principal's inspection, the Tri-Service Ball, and the annual mess dinner were held, which proved it to be the busiest and gayest month of the academic year.

The top picture shows Cadet guard being inspected by W. J. Henderson, M.P. for Kingston. Centre—A/S/LT Gordon Sedgwick receiving congratulations from CDR A.G.C. Whalley for winning the D.N.C. Sword The botto mpicture shows a Cadet guard mustered for Ceremonial Divisions on the occasion of a change of Commanding Officers.

RUS

The Royal Canadian Air-Force (Primary Reserve) University Squadron was formed in the fall of 1949 and by 1952 had reached its full strength of three flights. The fall of 1954 saw young women enrolled in the Squadron for the first time.

The Squadron is commanded by Wing Commander J. E. Wright MBE, ED, and he is assisted by one officer and one airman of the R.C.A.F. (Regular).

Students enrolled in the first year complete an Indoctrination Course and then proceed to their course school for initial training. In the second summer, training is continued. The third summer finds the squadron members employed in the R.C.A.F. in their respective branches. Several Cadets are sent overseas in third year.

Winter activities include lectures one night a week, a Tri-Service Ball and a squadron dinner.

COTC

The military tradition of Queen's reaches back into the last century: A Queen's College Rifle Company was in existence in 1862. However, the Fifth Field Company, Canadian Engineers, formed in 1910, initiated modern military activities on the Queen's Campus. The COTC itself was officially formed in November 1914 and, with the exception of the three year interval after the First World War, has operated continuously on the Campus since that time. During the two World Wars the unit grew to enormous proportion, and despite the unpopularity of military training in peacetime, a reasonable number of students have always continued to support the Contingent.

The present day version of the COTC provides an opportunity for undergraduates to voluntarily qualify for a reserve commission while attending university. The training programme may be of either two or three years in duration depending on the degree of qualification the student desires. The majority of the training is conducted during the summer when students are attached to Army Corps Schools and units as Officer Cadets and Second Lieutenants. A proportion of students in third year are sent to Germany for training with Canada's NATO Force. Some training and social activities are held during the academic year. Students in any faculty and in any course are eligible for membership and receive summer training appropriate to their University course.

During the past academic year the Contingent held a smoker at the Royal Canadian Electrical and Mechanical Engineering School and a mess dinner at the same place. A Tri-Service Ball, in conjunction with the RCN and RCAF, was held at HMCS Cataraqui. Last summer two Queen's Cadets were sent to Germany and others trained with the Canadian Army in various establishments across Canada.

CLUBS

GLIDING CLUB

Queen's Gliding Club is unique in that it is the only Canadian University Gliding Club. Gliding, like sailing, is not a mode of transportation but an extremely satisfying, fascinating sport. To the unitiated, a glider or sailplane is merely an engineer's aeroplane. To the glider pilot it is a streamlined, light aircraft in which a pilot relies on his skill, meterological knowledge and luck to stay aloft. Gliders have a full complet-ment of controls.

The Queen's Gliding Club has three gliders, two "Laister-Kauffman" dual place training ships and one high performance single seated German "Grunau." The club operates at the Norman Roger's Airport, five miles west of Kingston and the gliders are towed to 2000 feet altitude by a Tiger-Moth aircraft. The glider pilot then releases and he is in "free flight." He can stay aloft by getting into uprising air which may be a warm air column or an upwardly deflected wind.

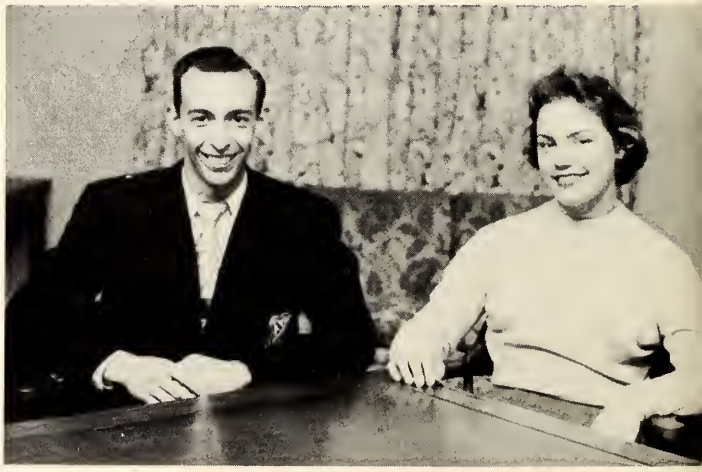
BADMINTON CLUB



Left to right: E. Koening (Pres.), S. Joyce.

CANTERBURY CLUB

1955-56 has been a busy one for C.C. In the fall term, Col. Douglas spoke about last summer's General Synod. Mr. Desmond Bowen initiated a series of weekly discussions on the next Sunday's Gospel. Once a month Communion Breakfasts were held at St. James.

The spring term featured a skating party, a joint meeting with the S.C.M., a lively talk by Miss E. Jones, regional co-ordinator of work with new Canadians, and Bishop Evans, who outlined changes in the Prayerbook. Queen's sent a delegate to the Canterbury conference in Toronto. At the annual banquet, Rev. Desmond Hunt was guest speaker.

Our sincere thanks go to Dr. Ross, our advisor and his wife, and to our Chaplain, Rev. C. Staples for making this a profitable and interesting year.

FRONT: E. Bird, F. Cannella (Pres.), A. Cameron.

NEWMAN CLUB

Newman Club was established at Queen's in 1917 and is now one of twenty-seven across Canada. We are a member of the Canadian Federation of Newman Clubs and are a part of the World Movement of Campus Students—Pax Romana. Newman Club is open to students of Queen's, R.M.C. and Hotel Dieu. The three aims of Newman Club are spiritual, intellectual and social. Every two weeks a Newman Nite is held, during which the club members take part in discussion groups—Communism, Psychiatry and Religion, Marriage Preparation, and Scholastic Philosophy, and wind up the evening with a social hour. Courses in religious instruction are given on alternate Sunday evenings by our Chaplain. On the first Sunday of each month, there is a Newman Mass followed by a Communion Breakfast with a guest speaker. The annual retreat is held early in March in St. James' Chapel.

Best wishes to Msgr. J. G. Hanley on this, his fourteenth year as Chaplain of Queen's Newman Club.

HILLEL HOUSE

The B'nai B'rith Hillel Foundation attempts to serve as the liason between the Jewish student body and the historical Jewish heritage. It seeks to lead Jewish students toward glad identification with the Jewish people through Jewish fellowship; toward uplifting insights into the sources of Jewish inspiration through Jewish scholarship; toward valuable contributions to the community and society-at-large through enlightened citizenship.

FRONT: D. Allan, S. Bartlett, A. Furbert (Pres.), J. Stackhouse.

QUEEN'S CHRISTIAN FELLOWSHIP

Affiliated with the Varsity Christian Fellowship throughout Canada and the world, the above-named Fellowship is that part of the work on campus at Queen's. Our motto and aim is "To know Christ and to make Him known." The group is just one member of the many that make up our University, and with them our purpose is to provide friendship and fellowship for the many students. As the name suggests, our Fellowship places great emphasis on the Christian experience, for we believe that one's relationship to Jesus Christ is of primary importance in this life and in that to come. However, we do not believe this to be the only important life.

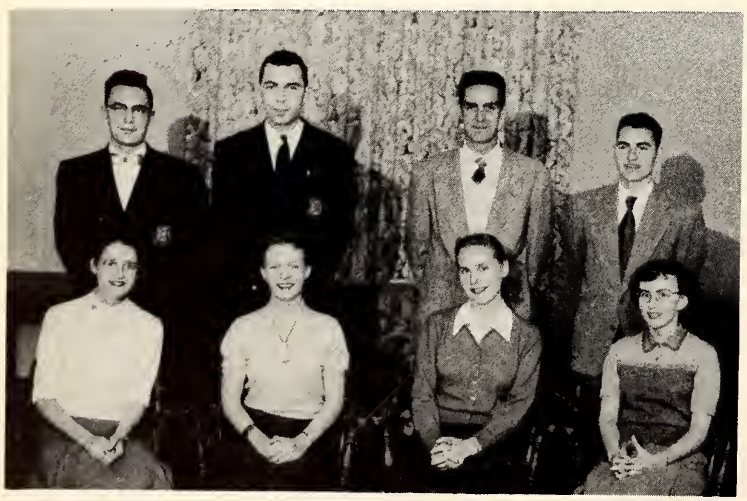
A life should be full, but well-balanced and rounded; the University takes care of the intellectual side and we endeavor to help with the spiritual and social sides.

BACK: E. Saunders, E. Hay, H. Lowenberger, C. Hoilett, J. Murray.
FRONT: E. Bolton, L. Edwards (Pres.), L. Leafloor, M. Porter.

STUDENT CHRISTIAN MOVEMENT

The "SCM" seeks to encourage among students a responsible and mature view of Christianity. The group consists of students of various faiths and of those seeking a faith, welcoming those people who are prepared to frankly discuss, search out, criticize and work out an understanding of their faith. Besides challenging ourselves and seeking to challenge the University Community with the Christian claims, we seek to participate in conveying this same challenge to university students around the world.

This year's activities included many study groups on various themes, a weekly chapel service, a series of luncheon meetings, and we succeeded in sending four Queensmen to a great Student Conference in Ohio. Certainly we are indebted to the clerical staff and lay persons who supported our endeavors. It has been a rewarding year and a great experience for all of us.



BACK: R. Lisk, R. Whittaker, J. Craigie, R. Hurley.
FRONT: S. Rees, D. Sorley (Pres.), B. Sanderson, H. Thompson.
ABSENT: Dr. Bendell (Hon. Pres.), J. Bulger.

BIOLOGY SOCIETY

The Queen's Biology Society is open to all students presently taking biology courses at Queen's, members of the Biology faculty, and graduates of Queen's in biology. Activities this year included our annual field trip to the Queen's Biological Field Station at Lake Opinicon and a new innovation, a Queen's Biology Society Open House at which the laboratory facilities were displayed to all students (especially freshmen) and friends. Speakers at our regular bimonthly meetings included Dr. Julian Blackburn of the Queen's Psychology Department, Dr. L. S. Russell, palaeontologist and chief of the Zoology Division of the National Museum of Canada, Mr. Joseph Lucas of the Queen's Biology faculty and Mr. Ivan Ophel of Chalk River.

N. F. C. U. S.

As the result of a very active year on the part of its Queen's Committee, NFCUS has become a topic of increasing campus interest. The Committee, chaired by Charles Hockman, began the year by obtaining several Queen's entrees for the NFCUS photography contest. During the fall term the committee began negotiations with local merchants for the establishment of a student discount service in Kingston. Due to an unfavorable response on the part of a few merchants and the University authoritiies, the plan was dropped after Christmas. This year's committee had revived the Ontario mandate for conducting the NFCUS campaign for increased government aid and higher income tax exemptions for students. Home and School clubs, Service clubs and other groups in Kingston were contacted in a concentrated effort to win public support for the project. Due largely to NFCUS efforts , a private member's bill for increased government aid to students was introduced in the federal parliament in February. In the spring term, the committee also carried on the NFCUS essay contest on this campus.

Left to right: Isacc, B. MacDonald, F. McLeod, C. Hockman, J. Jerome, S. Beiler, L. Carlsen, S. Howard.

W U S

The Local Committee of World University Service carried out a four-point programme this year.

In late October, we organized "Treasure Van" at Queen's, raising over $5,000 from the sale of oriental jewellery, fabrics, and handicrafts.

Throughout the fall term, an attempt was made to inform Queen's students of the real need which WUS helps to remedy in Asian countries: three lectures on problems in the East were given by Mr. Lewis Perinbam, Executive Secretary, WUSC, Rabbi Hollander of Hillel, and Professor M. C. Urquhart, who has recently returned from Pakistan.

In January we conducted an extensive fund-raising campaign to help WUS of Canada meet its promised allocations to student projects in Japan, Israel, Pakistan and Indonesia. Students and faculty responded generously with a total of approximately $1,900.

Finally, from among twenty applicants, two students were chosen to represent Queen's at the Seminar in Germany during the summer of 1956. The applicants were all of extremely high calibre, a fact which seems to indicate that WUS will play an increasingly active part in the life of Queen's throughout the coming years.

BACK: J. Cartwright, S. Reynolds, S. McCallum, P. Clapp.
FRONT: Prof. Carter, J. Partridge (Pres), A. Hayes.

UNION HOUSE COMMITTEE

The role of the Union House Committee may be understood more fully after a short description of the management of the Students' Union. The governing body of this building is known as the Union House Council and is comprised of the following members: Chairman, Dr. J. Orr, Principal MacIntosh, Mr. Farrell, a representative of the Board of Trustees, Dr. W. Campbell, Warden J. E. Wight, the three Faculty Presidents, the A.M.S. President, and the Union House Committee Chairman. This body is responsible for the actual operation of the Union, the fiscal policies and the long term planning.

The members of the House Committee are appointed members from the three Faculties on the campus; two from each society. Each member acts as a liason between the students and the governing body. Suggestions are considered at the House Committee meetings, and, if deemed advantageous to the student body are forwarded as recommendations to the House Council. Here the proposals are weighed in the light of past experience and general policy. Committee members are also employed in conducting tournaments such as chess and bridge, and as ushers at various Union functions. The role of a disciplinarian is almost non-existant today.

Left to right: J. Henderson, J. Wyllie, J. E. Wright, (Warden), C. Joyce, R. Morton (Pres.), J. Cameron, S. Robertson.

BACK: H. R. Hein, H. Warren, L. Funke, H. Marshall, H. F. Skoutajon.
FRONT: H. Burck, M. L. Funke, K. Kauffmann (Pres.), H. Eichner.

GERMAN CLUB

The German Club's main purpose is to provide a meeting place for all those students who are interested in and have some speaking knowledge of German. The monthly programs vary from literary discussions to more informal gatherings.

The highlights of this year were the annual Christmas party in the Ban Righ common room, a Carnival celebration in costumes and a musical avening. In commemoration of Mozart and Schuman, Dr. Girwin, of the German Embassy, presented films and a short lecture.

CAMERA CLUB

A highly successful year was enjoyed by the Queen's Camera Club during 1955-56. Meetings were held at which various photographic principles were discussed by the members and lectures given by members as well as local photographers. The highlight of the fall term was the portraiture session which was held in Wallace Berry's studio.

The climax of the winter term was the Annual Salon. Participation in this event was high, especially in the color section. Winners were: Black and White Portrait Class—Lawrence Wong's "Liz" and "Dean A. V. Douglas"; Scenics Class—"Sentimentals" by Jean Petit and "Residence Row" by Shirley Hendry; Still Life Class—"Tired Cubs" by Don Nicolson and "George" by Harry Meredith; Sports Class—"Ballet Russe" by Doug Phippen. In the color competition the winners were: "Geometry" by Edward Carter, "Big Town" by Don Nicolson and "Fireworks" by Jean Petit.

Left to right: W. Eames, A. Stinson (Pres.), D. Phippen.

Left to right: I. Baird, M. Moffat (Pres.), J. Gowling.

BRIDGE CLUB

The Queen's Duplicate Bridge Club held its regular meetings on Monday nights in the Co-ed Lounge during the past year. Regular tournaments in duplicate pairs were held each night, and over the year, the top team was Ian Baird and Bill Yule.

On February 10th and 11th, the Club was host to the Intercollegiate Bridge Tournament. The Tournament, held in the McLauglin Room of the Union was a big success, with thirteen teams participating, representing seven Universities and Colleges. The winners were Osgoode Hall. The best showing by a Queen's team was fourth and the team doing so was Baird, Yule, Purvis and Moffat.

DRAMA CLUB

The Drama Guild had one of its most successful seasons this year. The first term production, *Hamlet*, was acclaimed as one of the Guild's finest productions. Outstanding were Norman Edmundson in the title role and Kathy Totten as Ophelia. The director, Dr. William Angus, was honored this year with an appointment to the University of Hawaii, which commenced in January. Professor George H. Quinby of Bowdoin College, Brunswick, Maine, came to Queen's for the second term when he ably produced and directed Terence Rattigan's *French Without Tears*, initiating an entirely new and effective set.

The Guild also presented four one-act plays this year. The best play chosen by the adjudicators, *Hello Out There*, directed by Bob Beattie, was the Guild's entry for the IVDL Festival. Another outstanding presentation was that of a new original play by former Guild member Don Gollan, Arts '55. *Beyond Moriah* was very well received and it is hoped that the Guild will have the pleasure of presenting more of Mr. Gollan's works.

With over eighty members this year, a healthy cash balance and six productions, the Drama Guild looks back on a most rewarding and exciting year and ahead to bigger and better things in the future.

BACK: B. Gunyon, G. Bacq.
FRONT: M. Harris, E. Grimmer (Pres.).

BACK: M. Bishop, N. Edmundson, G. Penny, M. Meehan.
FRONT: Dr. Angus, K. Totten, J. Bethune (Pres.), A. Hayes, M. Rogers.

SPANISH CLUB

The aim of the Spanish Club has been to provide students of Spanish with an opportunity to meet socially and practise their Spanish in conversation. In this endeavor, Charlas were held in the coffee shop with Spanish-speaking students in attendence. Monthly meetings were held throughout the year and discussion usually centered around interesting topics pertaining to the Spanish world.

Among our speakers this year were the following: Mr. Brandenburg of the Queen's Spanish Department, Diego Marin, of the University of Toronto, and Dr. Samuel Morrison, the Dunning Trust Lecturer.

The very capable executive who directed the Club's programs this year were Mary Harris, Elizabeth Gillan, Sinclair Richards, Barbara Gunyon, Guy Bacq, and Marina Pauman.

GLEE CLUB

It's difficult to say which rasped delicate sensibilities more, the first time we read through the score of the Beggar's Opera, John Gay's poetry, or Benjamin Britten's music. Gradually, though we came to appreciate the witicisms of Gay's social inversion, and "Benjy's" frantic dis-chords. November 30th was the production date. Almost too soon it seems, we were putting on greasepaint and costumes and the opera was a success.

After Christmas there was the expected fall out, but enough singers remained for the club to sponsor a small group in the Ottawa Music Festival. We had a lot of fun in this endeavor, although at the beginning no one would have thought that six numbers could require such concentration. Three first place certificates, and the experience of going afield were our rewards.

BACK: Jim Barber, H. McKee, S. Cameron, Jim Manning.
FRONT: M. Gilroy, Dr. George, P. Armand.

BACK: C. Pollock, R. Buck, F. Compbell.
FRONT: Dr. Fitzpatrick, A. Donaldson (Pres.), J. Mothersill.

MATHS AND PHYSICS CLUB

There has been a new surge of interest in the Maths and Physics Club this year shown by the fact that both the attendance and membership records were broken. This has been primarily due to the programs which have undoubtedly had higher interest appeal. Examples of this are Dr. Heizberg's lecture on the "Hyperfine Structure of Spectra", when we had over ninety people in attendance, and the film on Dr. Oppenheimer, which brought a large number of interested people from all faculties.

Another highlight this year was our formation of the student chapter of the Canadian Association of Physicists in Kingston. This was done under the guidance of Dr. Sargent and is the second such group in Canada.

BACK: D. Rhodes, C. Hoilett, W. Martin.
FRONT: Prof. Jeffery, P. Clopp (Pres.), P. Herzberg.

MILLER GEOLOGY CLUB

The Miller Geology Club, one of the oldest student organizations at Queen's, exists as an institution to create and develop interest in the earth sciences. Since it is essentially an undergraduate club, the programme is focused on topics of a general and varied nature, avoiding the strictly academic. In line with this, speakers representative of exportation, development and production phases of geology are enlisted for bi-weekly meetings. Kodachrome slides are frequently employed by the speakers. During the current year, talks have ranged from the subject of oil exploration in the rapidly expanding Calgary area, to the subject of geophysical prospecting in remote areas of Labrador.

Highlights of the '55-'56 programme included the undergraduate Counsellor's Night, held in conjunction with the Mining and Metallurgy Club, the annual trip to the Prospector's and Developer's Convention in the Royal York, and a stag of some import as a spring finale.

BACK: J. Hoy, D. Conn, W. Caton, E. Todosier.
FRONT: A. Barry, D. Davenpjort, G. Thede (Pres.), T. Archer.

AMATEUR RADIO CLUB

The Queen's University Amateur Radio Club is made up of Queen's students who are now, or are interested in becoming, licensed radio amateurs, better known as "hams".

During the winter months, the club meets bi-weekly to discuss problems and interests and to plan future activities. Each noon the prospective amateurs engage in Morse-code practise and study electronics in preparation for their Governmental examinations in February.

From the inconspicuous station in the Science Clubrooms, the members of the club are making the name of Queen's University known the world over. The next few years hold great promise for the club as radio Communications enter into the favorable part of the sun spot cycle. During this time the higher frequencies become more useful and long distance contacts are possible with extremely low power.

INTERNATIONAL RELATIONS CLUB

Under the direction of president Kristian Palda, the International Relations Club this year remained Queen's focal point for student interest in foreign affairs. Intelligent participation by large numbers of students highlighted a program which included talks by Brigadier Quilliam and Israeli Ambassador Comay on the Middle East, Ronald Burroughs of the British Foreign Office on Europe, Professor Cappadocio of Royal Military College on Italy, Professor MacKirdy of Queen's on the Commonwealth and Professor Marin of Toronto on modern Spain. Tony King and Ronald MacGregor represented the IRC at the eighth annual St. Lawrence University Model Security Council. Tony maintained Queen's fine record at the Council by winning the award as the best individual delegate.

Left to right: K. Palda (Pres.), J. Reid, S. Howard.

INDUSTRIAL RELATIONS CLASS '55 '56

BACK: C. Umpherson, D. Houck, R. Gibson, R. MacDonald, H. Monnette.
CENTRE: R. Quirk, J. MacFarlane, S. Hendry, W. Charma, J. Hagerman.
FRONT: R. Sprole, J. Sanders, D. Orr, Prof. J. C. Cameron, Director, D. Burge, D. Ashdown.

Queen's is not just an institution of learning, it is also a place where students develope the executive ability and individual talents that are so necessary to them in later life.

Tricolor '56 would like to salute this group of graduates who have made special contributions to the university.

These people have devoted their time, energy, and ability to make the life outside the class room rich in those aspects of college life not to be found in text books

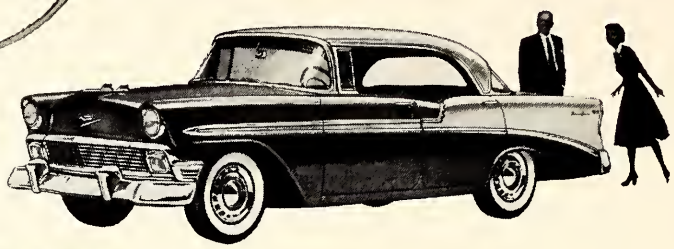
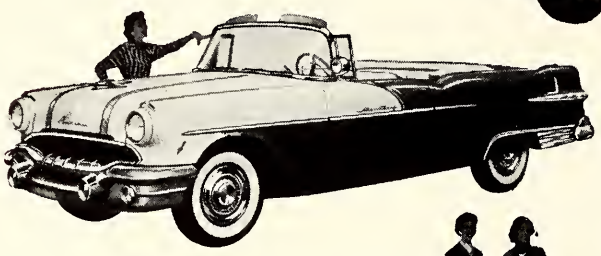
Again in '56

5 good reasons why GM remains the leader



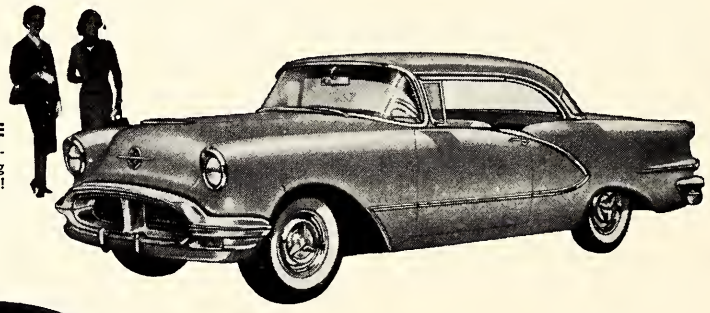
CHEVROLET BEL AIR SPORTS SEDAN

Hardtop glamour, 4-door convenience, the low-sweeping flair of Bel Air Styling for '56 . . . behold the sport model sensation of the year! Inside . . . luxurious comfort, plenty of room for six.



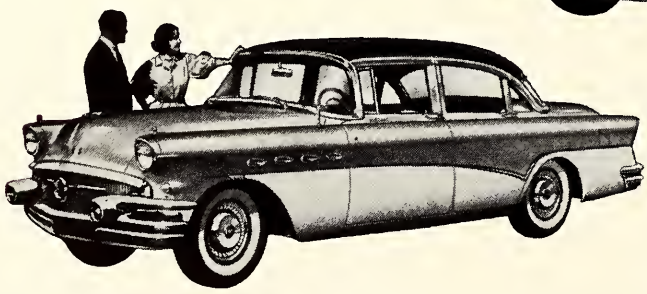
PONTIAC STAR CHIEF CONVERTIBLE

An open invitation to a thrilling new experience! Wherever this Pontiac goes, admiring eyes will follow. Pontiac's startling new two-toning and dramatic grille design make this the centre of attraction anywhere.



OLDSMOBILE 98 DELUXE HOLIDAY COUPE

The sparkling difference in the styling and design of the Ninety-Eight creates a new fashion for the highway, further serving to set it apart and distinct in appearance and performance!

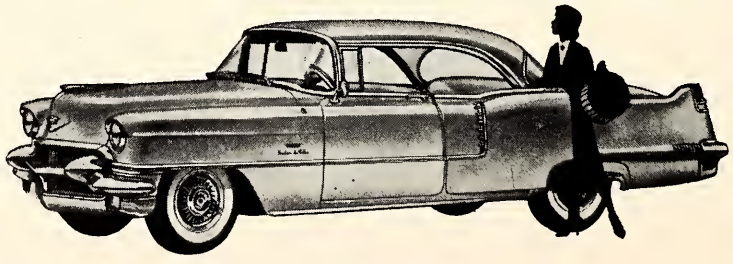


BUICK ROADMASTER 4-DOOR SEDAN

The incomparable Buick Roadmaster for 1956 is the pride of the mighty Buick line — a car that's almost custom detailed, a car that's priced far below the real luxury it brings you.

CADILLAC SEDAN DE VILLE

A completely new Cadillac creation, a magnificent companion to the world-famous Coupe de Ville. All the comfort, spaciousness and convenience of a four-door model, all the spirit of coupe design.



Canadians continue to prefer General Motors cars over every other make.

The magnificent 1956 General Motors models have new styling, power, safety, and performance built into every one. And every one is a value-leader in its price range.

Set a date with your GM Dealer to see and drive one of these great cars soon.

Queen's University Contingent

Canadian Officers' Training Corps

OBJECT

To train young officers to be leaders in the Canadian Army.

METHOD

Enrolment for at least two summers of up to 20 weeks at Second Lieutenant's pay plus two winters with a limited lecture program qualifies candidates for a commission as army officer and choice of enrolment in

(a) The Canadian Army Active Force,
(full-time service in the regular forces)

or

(b) The Canadian Army Reserve Force,
(part-time service with a reserve unit —usually one or two evenings per week and a short summer Camp)

or

(c) The Supplementary Reserve.
(A list of trained officers who are unable, through lack of time or for other reasons, to belong to the Reserve Force).

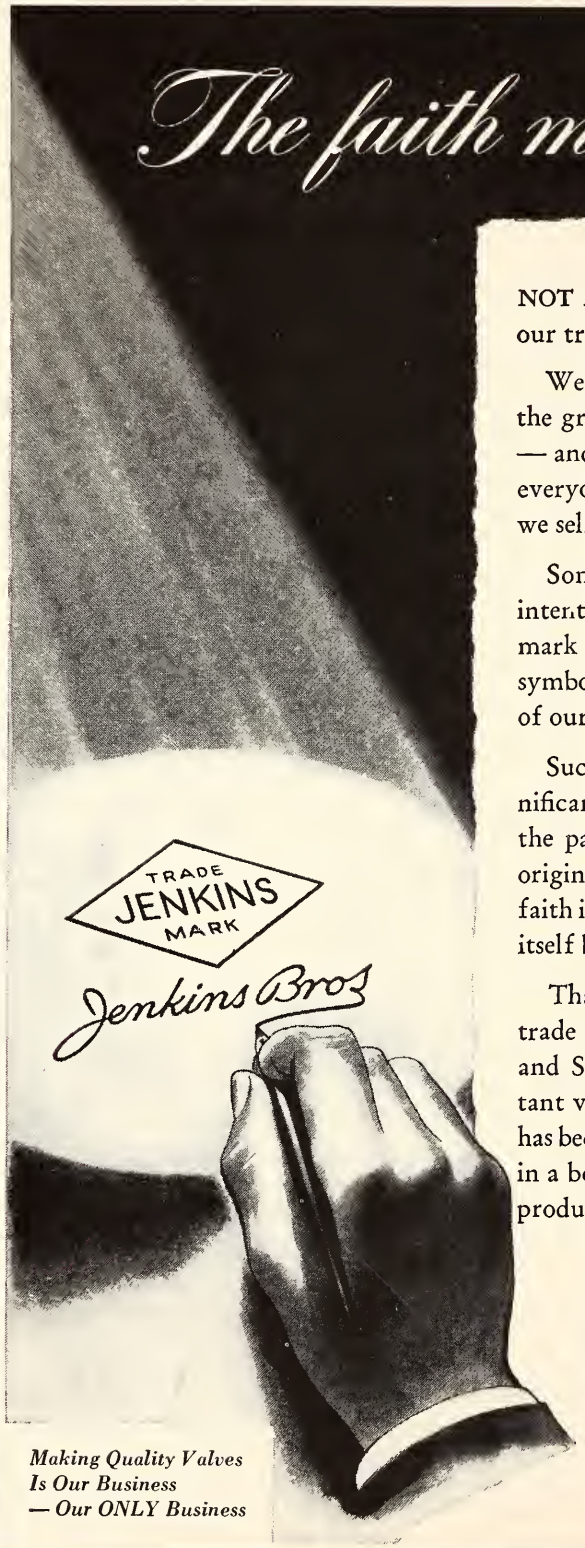
LEVANA '58

The faith men live by



NOT A DAY GOES BY that we don't put our trust in others, in countless little ways.

We trust the policeman to keep the peace, the grocer to give us good meat and bread — and we trust, in measure, the honesty of everyone whose wares we buy, or to whom we sell our own.

Sometimes in evidence of our good intent, we sign our name or make our mark — and this mark becomes a visible symbol of our earnestness to merit the trust of our fellow man.

Such a mark does not attain its full significance as the ink is dry, but rather with the passage of years. As time goes by the original trust that engendered it ripens into faith in the signer's integrity, and that faith itself becomes an institution.

That is why Jenkins Bros. consider their trade mark — the Jenkins Bros. Diamond and Signature — among the most important virtues of a Jenkins Valve. This mark has become a symbol of justified faith placed in a body of honorable men making honest products, since 1864.

Rock Drills...

to lower your costs—drills and mountings to suit your mining practices and conditions

● Illustrated is the JR-38 Universal Jackdrill. Built entirely in Sherbrooke, it's the first three-way drill designed for Canadian mining conditions. You can use it as a drifter, as a sinker or as a stoper. But this is only one of the many I-R rock drill combinations that you can apply to your own mine operations.

For quarrying or open-pit work there are Wagon-jacks, Wagon Drills, the self-propelled Twin Wagon Drill or the giant Quarrymaster. For underground work I-R Drifters are widely used mounted on Jumbos, power booms and other types of mountings.

Whether you're sinking a shaft, driving a drift, raising a stope, or working an open pit, call your nearest Canadian Ingersoll-Rand Branch Office for the services and experience of an I-R rock drill man.

Canadian Ingersoll-Rand Company Limited

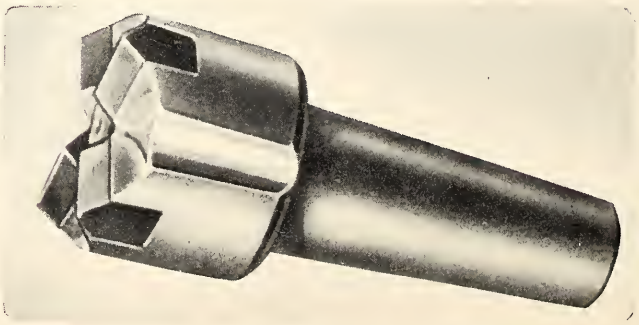
HEAD OFFICE: MONTREAL, QUE. WORKS: SHERBROOKE, QUE.

BRANCHES: ST. JOHN'S • SYDNEY • SHERBROOKE • MONTREAL • TORONTO
KIRKLAND LAKE • TIMMINS • WINNIPEG • CALGARY • NELSON • VANCOUVER

The JR-38 drifting. It is the only drill and air-feed designed as an integral unit.

The JR-38 as a stoper. Interchangeability of parts saves capital expenditure and inventory when you use a JR-38.

The JR-38 as a sinker. Light and powerful, the JR-38, is quickly converted to a sinker.



And, of course, the famous XL Carset Jackbit—with all your Ingersoll-Rand rock drills—gives you maximum drilling results.

canada and You

Whatever your plans for the future, as a young Canadian, you stand in a particularly advantageous position. Canada is on the move, with huge power developments, new pipe lines, the seaway begun, and other large projects underway. And these developments are matched by the establishment of hundreds of smaller manufacturing plants and by the growth of older firms throughout the whole of Canada. This growth means opportunity to those who prepare themselves to meet the challenges that lie ahead.

Standing as you do, on the threshold of a new era, you are Canada's hope for the future . . . and that future has never appeared brighter.

- Stelco is Canada's largest steel producer.
- Stelco is over 90% Canadian owned.
- Stelco paid out $82,340,596.00 to other firms for materials and services in 1954.
- Stelco paid out a total of $51,620,915.00 in wages and salaries and other supplementary employee benefits in 1954.
- Stelco has spent more than $181,000.000.00 in its continuous expansion programme.

'CLC' Salutes a Great Canadian University

There is a link between Queen's University and "CLC" which is more than the co-incidence of their location almost within stone's throw of each other. It is a link of PURPOSE, which, in the last analysis, is the development of our nation. Queen's builds character, the quality of leadership, the urge of open new frontiers in a dozen fields. CLC's contribution lies in building much of the equipment so necessary to Canada's continued prosperity and expansion.

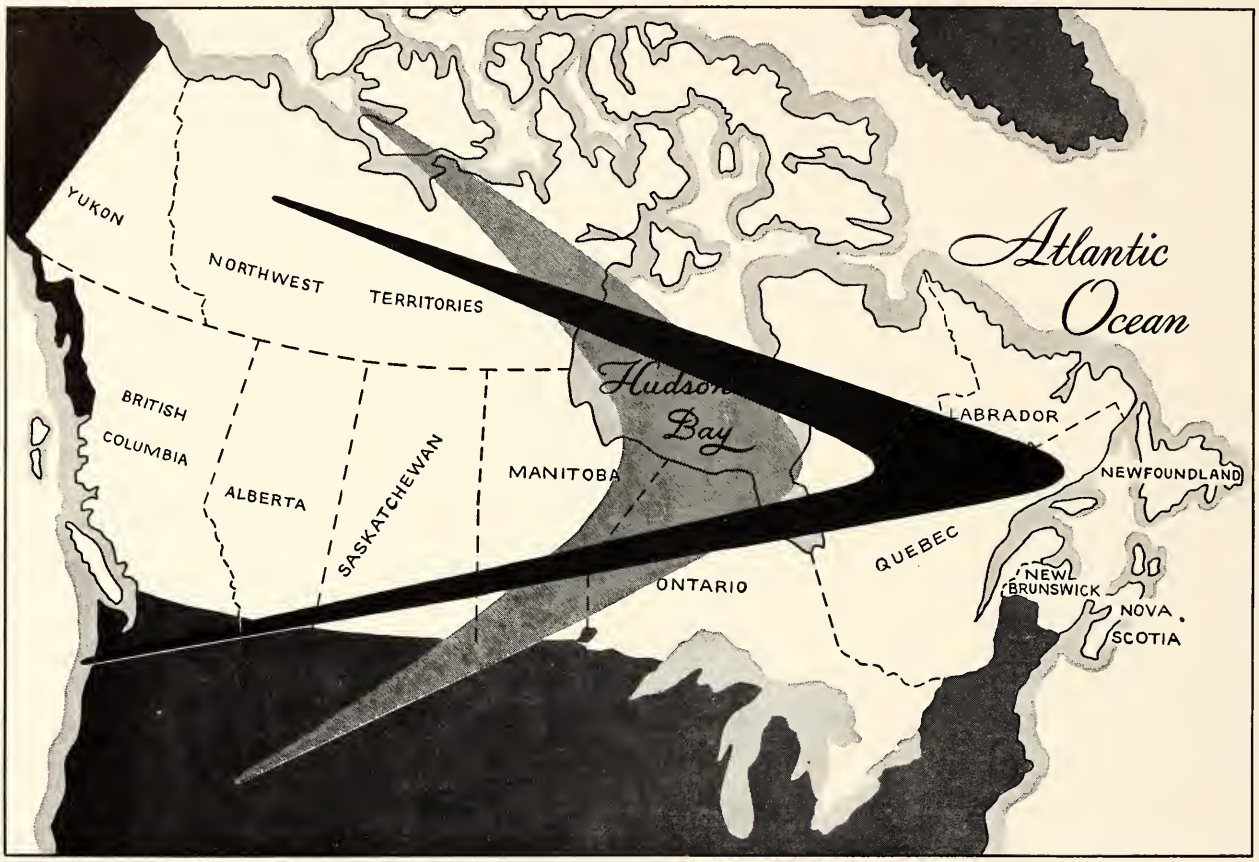
THE *FORWARD* LOOK

is everywhere in Canada!



You're just in time—big things are happening in this fine land of ours!

All across Canada, a dynamic new kind of progress and growth has taken form in the last decade. Commerce. Industry. Agriculture. They're bursting with new vitality—and still gaining momentum.

And you're in on all this, now!

In our own business, we at Chrysler call this fresh, go-ahead spirit the Forward Look. It takes the form of new plants and new techniques for doing things better. And it finds dramatic expression in the sleek new styling of our cars.

It's a wonderful time to be young and just starting out. There are great things to be done, and rich rewards to be won. The Forward Look is everywhere in Canada, and it promises an ever brighter future for us all.

PLANNING FOR TOMORROW

● Canadian Westinghouse engineers are planning for tomorrow *today* in the company's laboratories, offices and factories—planning new electrical, mechanical and electronic developments that will mean progress for Canada, better living for Canada's people. The steady expansion of this great company is constantly creating new opportunities for engineering graduates to find places beside some of Canada's leading engineers on the Westinghouse staff. If you are studying engineering, you can plan for your bright tomorrows now by getting in touch with Westinghouse.

YOU CAN BE SURE...IF IT'S

Westinghouse

ANNIVERSARY ORGAN

Here is where the 75th Anniversary Casavant organ is produced.

Here it is conceived, assembled, built and tested for tone and structure.
Here only the best is made.

The first Casavant organ, built in 1837, was a forerunner of the partnership which last year celebrated its 75th year of existence.

HOW BRIGHT IS YOUR TOMORROW?

No one can tell you how things will go with you next year . . . next month . . . or even tomorrow. But you can take a lot of the worry out of "tomorrow" by talking to the Canada Life representative.

A Canadian Company with over a century of experience, the Canada Life can give you practical, down-to-earth advice. Advice that will help you meet future uncertainties and make tomorrow bright.

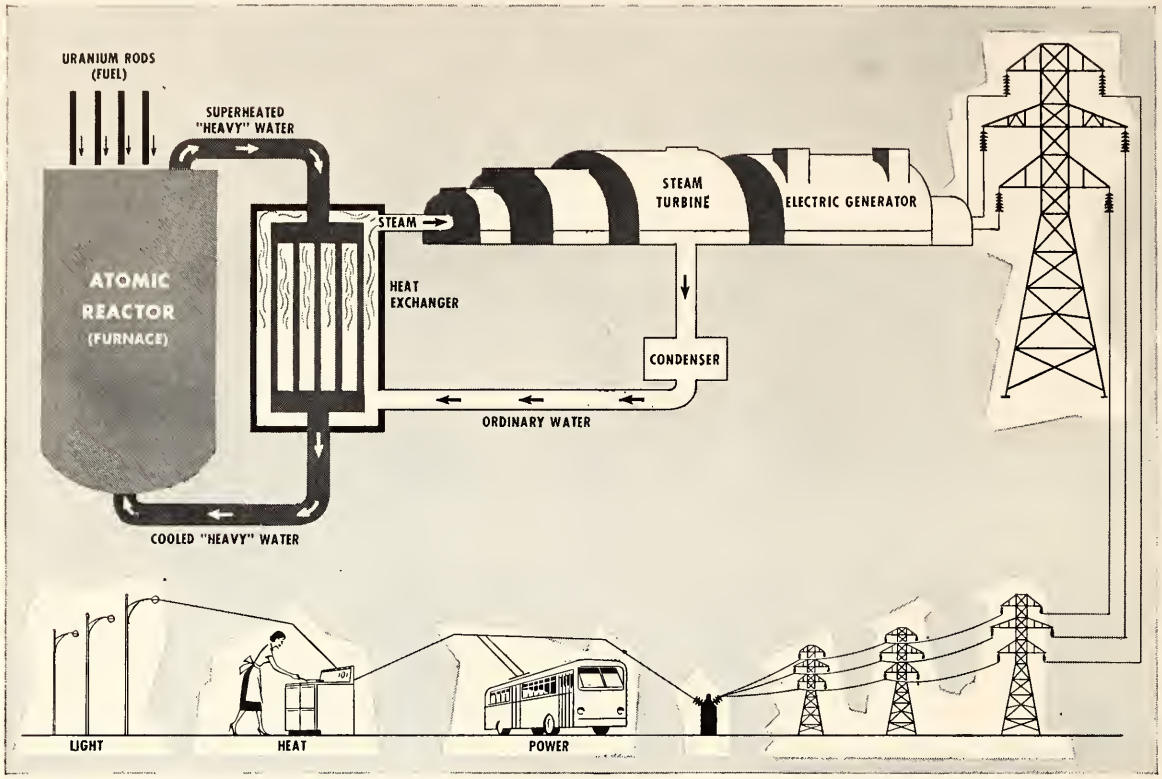
How an Atomic Electric Power Plant works



Heat generated by a fuel source of uranium rods in the atomic reactor, or furnace, superheats "heavy" water which is piped through a heat exchanger where ordinary water is turned to steam. Once steam is created, electricity is generated by a conventional steam-driven turbine-generator. The electricity produced is the same as the electric power we use today.

CANADIAN GENERAL ELECTRIC

together with Atomic Energy of Canada Limited and Ontario Hydro to build Canada's first Atomic Electric Power Plant

DRAMATIC proof of Canada's world prominence in the development of nuclear energy for industrial purposes is the atomic electric power plant now being designed for erection near Chalk River, Ontario.

Basically, the plant will consist of an atomic reactor and an electric generator driven by a steam turbine. The vast heat from the reactor, or furnace, creates the steam to drive the turbine. This unique power plant when completed, will become part of the Ontario Hydro system.

Electricity from the atomic power plant will be exactly the same as the electric power we know today. Only the source of energy to produce the steam is changed. Atomic fission of uranium rods will provide the heat instead of burning coal, oil or gas as in a conventional furnace.

For the complex and challenging assignment of engineering and constructing Canada's first atomic electric power plant, a new organization has been formed within Canadian General Electric — the Canadian Atomic Power Department. Already a hand-picked group of highly qualified people, including top nuclear experts, is working full-time on the project.

Canadian General Electric is deeply conscious of its great responsibilities in pioneering this new and vital development. The invaluable knowledge and experience gained from all phases of the work will be freely available to privately and publicly owned power companies across Canada. It will be a working pilot plant on which to base the atomic electric stations of tomorrow. These may eventually become this country's major source of electricity.

For over 60 years, Canadian General Electric has helped to spread the benefits of electric power throughout this country—building equipment to generate power, transmit it and put it to work. It is gratifying to have this historic opportunity to contribute both experience and a share of the cost to a development that will still further promote the electrical way of living for all Canadians.

ODDS AND SODS

THE ROLEX OYSTER PERPETUAL is absolutely accurate in its permanently sealed, waterproof Oyster case . . . 19 ruby jewelled, anti-magnetic, shock-proof . . . automatically wound by the famed Perpetual self-winding "rotor". See it before you buy any watch,

You may be the young man who deserves a Rolex

Slip the gleaming Rolex Oyster Perpetual about your wrist, and you will be wearing one of the most accurate, most honoured timepieces which Swiss craftsmanship has yet produced. You may be sure the world will know it, and will judge you accordingly.

Whatever your life's work will be, a Rolex watch will give you faultless time-keeping when it is most needed. Your Rolex will give you more: the quiet pride and assurance of a man who values time and the finest of possessions. The man who wears a Rolex is a leader.

The jeweller who sells the Rolex Oyster Perpetual will be pleased to explain why few wristwatches have become so widely prized as a Rolex. Priced from $135.00. **At better jewellers from coast to coast.**

ROLEX

BY ROLEX, GENEVA

ROLEX—Inventors of the "OYSTER", the world's first and still finest waterproof wristwatch.

CANADA DRY

IT'S DRY... THAT'S WHY!

SINCE 1868, KINGSTON STORE FOOD MUSEUM

Specializing in fine foods of every description . . . imported selections, taste-tempting, exotic.

A tour around our shelves is like an Epicurean voyage around the world.

Cheese made by the yodelling Swiss, Grouse taken from the game bags of Scottish sportsmen, etc. Indian condiments prepared within sound of the temple bells of Calcutta and Bombay.

You'll be pleasantly surprised at the delectable viands to tempt the appetite and beguile the tongue.

Come in and browse around . . . It is educational and enjoyable.

ACKNOWLEDGMENTS

At this time the editorial board wishes to pay tribute to a number of people whose kindness and generosity has contributed greatly to the publication of Tricolor '56.

Thanks—To Dave Dewar for supplying us with photos which inevitably were needed "immediately."

—To Marie Pollitt of Timothy Photography and also Jeanette McDonald and Henrietta Draayer whose overtime at Christmas allowed us to meet that first all important deadline.

—To Herb Hamilton, Mrs. Williams and Padre for their advice and moral support.

—To Don Upton, Keith Flegg and Pete Loucks for their beautiful colored shots. Also to Doug Phippen and Bill Raffan for photos.

—To all those who brought in candid snaps.

—To the sales staff for a great job of selling.

—To Mike Moffat for his assistance with sports stories.

—And to our photographers and typist for willingly devoting many long hours to this book.

We are truly grateful for their assistance.

ADVERTISING

Without advertising and advertisers, it would be almost impossible to produce this yearbook. The absence of advertising would necessitate a considerable rise in the price of Tricolor to each student.

Remember—these are our advertisers. Their support has been wonderful. Patronize them whenever possible.
